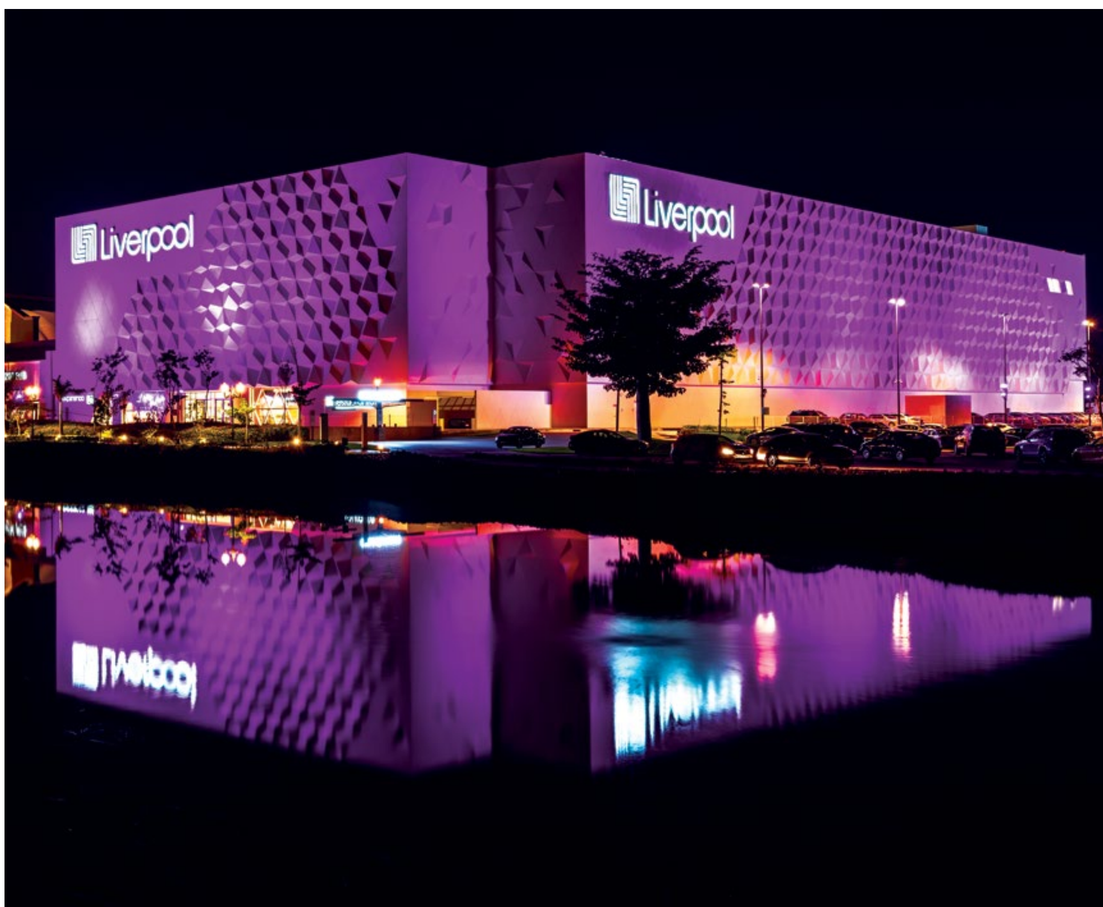
REPORT FROM THE CHIEF EXECUTIVE OFFICER



During 2024, we faced a challenging environment, particularly during the second half of the year, where the economic slowdown and the depreciation of our currency were evident.

In this context, our omnichannel business model once again demonstrated its strength and adaptability, always focused on providing customers with an exceptional and personalized shopping experience. Additionally, we continued to move forward firmly with all our strategic initiatives.

Our consolidated revenue reached $214,848 million pesos, an increase of 9.6% compared to the previous year, reflecting solid growth in all our business units.

In the Retail business, we achieved an increase in total revenue of 8.9%. Same-store sales grew 6.9% for Liverpool and 7.7% for Suburbia, exceeding the 4.6% growth reported by the ANTAD department store sector. We continued strengthening our service levels, improving the customer experience, and developing new formats, such as Mercado Gourmet and Café Disney. We increased our geographic footprint by opening 8 Suburbia stores and 23 Liverpool Express stores. In addition, we introduced new exclusive brands such as Dupuis.

Our digital channel's Gross Merchandise Volume (GMV) grew 17.4%, its share reached 27.6%, and 6.2% for Liverpool and Suburbia, respectively. We implemented a new technology platform for our marketplace, improved the search algorithm and the ability to enrich the content of our page, and released new functionalities for our customers.

For our supply chain, we achieved significant progress in our new logistics center development for Softlines in Arco Norte, whose start of operations is scheduled for the second quarter of 2025. We improved our integrated planning process and launched a new commercial planning tool.

Revenue from the Financial Services business increased by 18.4%. Over-90-day past-due accounts at year-end reached 3.2%, an increase of 50 basis points compared to the previous year, but still well below pre-pandemic levels. Our Non-Performing Loan coverage ratio was 3.0 times. The expansion of our net loan portfolio was 12.9% compared to the previous year, reaching $64,332 million pesos. At the end of the period, we had more than 7.8 million cards, an increase of 8.0%. We continued to expand our ecosystem with new financial product offerings such as personal loans, new insurance programs, and the launch of our savings and investment offering.

The Real Estate business increased its revenue by 7.3%, excluding the one-time benefit from an insurance claim recovery recorded in the fourth quarter of 2023. In March, we completed the purchase of the Altama City Center shopping mall in Tampico, Tamaulipas, which has a Gross Leasable Area (GLA) of 41,000 m^2 and an occupancy rate of 96%. Throughout the year, we increased our gross leasable area by more than 66,000 m^2 with the expansion of Galerías in Metepec, Saltillo, and Serdán in Puebla.

Consolidated EBITDA reached $37,558 million pesos, an increase of 7.3%. The EBITDA margin of 17.5% was forty basis points below the previous year. This reduction is attributable to personnel expenses increases, new store openings, an increase in bad debt provision, and new hiring in digital and technology.

Net income for the year grew 18.8% to reach $23,154 million pesos, reflecting the operating performance described above and a significant contribution from foreign exchange gains due to the peso devaluation against the dollar.

Our financial strength is reflected in a cash position of $24,728 million pesos at year-end and a low leverage ratio of -0.04 times net debt to

Consolidated EBITDA reached $37,558 million pesos, an increase of 7.3%.

EBITDA. Maintaining a strong balance sheet continues to be a priority.

Capital Expenditures, including real estate trusts, totaled $12,134 million pesos, a historical record, and were focused on optimizing our supply chain through infrastructure and technology projects, renovations, and expansions.

At the end of the year, we took a significant step in our diversification strategy by announcing an agreement with Nordstrom Inc., in which El Puerto de Liverpool and members of the Nordstrom family will acquire all outstanding shares of Nordstrom Inc. not already owned by either party. If the transaction is completed, which is subject to certain requirements, El Puerto de Liverpool would indirectly hold 49.9% of Nordstrom Inc.'s shares, while the Nordstrom family would hold the remaining 50.1%. In addition to geographic and currency diversification, this transaction will allow us to share and adopt best practices in key areas such as eCommerce, logistics, loyalty programs, and customer service, among others.

During 2024, we reaffirmed our commitment to sustainability. We updated our materiality analysis to align our strategy with the priority issues identified under environmental, social, and governance (ESG) criteria.

In environmental matters, we made progress in reducing our carbon footprint, strengthened the responsible management of waste, and optimized our processes to significantly reduce potable water consumption. Additionally, we solidified our responsible purchasing strategy through audits focused on evaluating the social and environmental practices of our private label strategic suppliers.

In the social sphere, we promoted gender equality by increasing the participation of women in middle and senior management. We have strengthened our relationship with our employees through initiatives such as the Medical Emergency Line and specialized protocols for mental health care. Likewise, we reinforced our impact on education, benefiting more than one hundred thousand users through Liverpool Virtual University and other training programs.

Finally, corporate governance terms, we reinforced our regulatory framework by publishing new key policies, reaffirming our commitment to transparency and corporate responsibility.

Our achievements are the result of the loyalty of our customers, the dedication and capability of our employees, the trust of our suppliers, and the commitment of our investors. Their continued support drives us to innovate and offer our best, keeping El Puerto de Liverpool at the forefront, providing memorable experiences and consolidating our leadership in the sector.

Thank you,

Enrique Güijosa H.
CEO
December 31st, 2024

El Puerto de Liverpool at a glance

Productivity, Teamwork, Innovation, and Integrity.

Liverpool

Report from the Board of Directors

REPORT FROM THE BOARD OF DIRECTORS

At Liverpool, personalized customer service continues to be our main differentiator.

To our Shareholders

In 2024, we continued advancing our omnichannel strategy to offer personalized experiences that exceed our customers' expectations. Consolidated revenue increased by **9.6%** compared to the previous year, reaching **$214,848 million pesos.**

In the Retail business, revenue totaled **$190,725 million pesos**, expanding **8.9%** compared to last year.

We transformed our stores, offering a wide range of value-added services that enrich the customer experience, such as **Extended Catalog, Mercado Gourmet, Extended Warranty, Beauty Experience, Geek Help, Experiencia Gourmet,** among others.

During the year, we continued our Liverpool store renovation program, completing the remodeling in **Santa Fe, León,** and the ground floor of **Parque Delta.** We also reopened the **Acapulco** and **La Isla** stores.

Suburbia evolved with its 'Rediscover Suburbia' strategy, strengthening customer connections through private labels, a wider variety of products, and new in-store services. We opened **8 new stores**, reaching a total of **194 units**.

Liverpool Express brings us closer to the customer by expanding our geographic presence and reaching new market segments. This format, designed to meet the specific needs of each location, features **Click & Collect** and Financial Services as the core of its offering. We closed 2024 with **40 stores**.

Liverpool Express brings us closer to the customer by expanding our geographic presence and reaching new market segments.

We opened 8 new Suburbia stores, reaching a total of 194 units.

Our digital channels achieved growth of **16.4%** for Liverpool, **75.0%** for Suburbia, and **41.1%** for Marketplace. We diversified our offerings by expanding the Marketplace catalog by **41.4%**. Digital sales participation reached **27.6%** and **6.2%** for **Liverpool** and **Suburbia**, respectively.

Liverpool has established itself as one of the most important BYD distributors in Mexico with **4,384 units** sold during the year, and an extensive network of **6 operational showrooms** and **3 certified workshops**.

The Financial businesses division demonstrated solid performance, with an **18.4%** increase in revenue. We surpassed **7.8 million** credit accounts at El Puerto de Liverpool. Non-Performing Loans remained at good levels with a 50 basis point increase compared to the previous year, reaching **3.2%**.

In line with our strategy of offering innovative financial products and services, we introduced the **"Activa"** card at Liverpool, a savings and investment account operated by **Banco Actinver** and managed through our digital platforms.

Supported by our digital channels, the Insurance division achieved a historical record with **3.5 million** active policies.

Galerías Shopping Centers ended the year with an occupancy rate of **92.3%**. Total revenue increased by **7.3%**. This year, we acquired the Altama City Center shopping mall in Tampico, Tamaulipas.

Overall, EBITDA recorded **$37,558 million pesos**, a **7.3%** growth compared to 2023. Net income, at **$23,154 million pesos**, was **18.8%** higher than the previous year.

16.4% growth achieved in our digital channels for Liverpool, 75.0% for Suburbia and 41.1% for Marketplace.

92.3% occupancy rate in Galerías Shopping Centers. Total revenue increased by 7.3%.

We made progress in reducing our carbon footprint, working towards neutrality by reducing 268,000 tons of CO_2 equivalent.

At the end of the fiscal year, we maintained a solid financial position, with cash-on-hand of **$24,728 million** and a leverage ratio of -0.04 times net debt to EBITDA.

CAPEX reached **$12,134 million pesos**, a record figure for El Puerto de Liverpool in Mexico; **43%** was allocated to logistics and IT projects, **31%** to renovations and expansions, and **17%** to new store openings.

Income tax amounted to **$8,955 million**, a **19.4%** increase compared to the previous year. Other withheld and paid taxes, import taxes and duties, contributions to IMSS, SAR, and INFONAVIT were **$18,362 million pesos**.

During the Ordinary Shareholders' Meeting held March 12th, 2024, a **$3,959 million pesos** dividend was declared.

At **El Puerto de Liverpool**, we reaffirm our commitment to a sustainable future through concrete actions in our operations and value chain. We made progress in reducing our carbon footprint, working towards neutrality by reducing **268,000 tons of CO_2 equivalent**. We implemented strategies for responsible waste management, ensuring the recycling of **100%** of material, with the potential for reuse, and optimized water use, reducing potable water consumption by more than **1 million cubic meters**. In addition, we strengthened our responsible purchasing strategy, auditing social and environmental practices of our strategic suppliers. In the social sphere, we promoted gender equality by increasing the participation of women in middle and senior management roles, and we enhanced our impact on education by benefiting more than **100,000 users** through Liverpool Virtual University and complementary programs.

In the "World's Best Companies" ranking by Time and Statista, **El Puerto de Liverpool** was positioned at 222nd position out of 750 companies. We also reached the 180th position out of 500 in the "World's Best Companies for Sustainable Growth" ranking, becoming the fourth-best Mexican company out of the 13 included.

Last March, after more than **40 years** with the company, **Mr. Max David Michel** reached retirement age and left his position as Chairman of the Board of Directors.

Mr. David leaves an invaluable legacy in our company. His outstanding contribution to El Puerto de Liverpool's growth and profitability has been possible due to his strategic vision and tireless commitment. We express our sincere gratitude and wish him the best in this new stage.

With deep sadness, we report the passing of **Mr. Henry Brémond P.**, who was Chairman of this Board from 1982 to 1995 and Chairman of the Patrimony Board since 2003. Mr. Henry was a visionary leader, a committed philanthropist, and an exceptional human being. His dedication and passion for **El Puerto de Liverpool** were fundamental to the growth and development of this institution. His legacy will live on, driving us to build our future with the same passion and commitment demonstrated in his every action. We express our deepest sympathy in his memory.

El Puerto de Liverpool

was recognized in the "World's Best Companies" ranking by Time and Statista.

On December 23rd, we took a significant step in our diversification strategy by signing a definitive agreement to acquire, together with the Nordstrom family, 100% of the shares of Nordstrom Inc. not owned by either party. The transaction is subject to the fulfillment of certain conditions, including regulatory approvals in the United States of America and the approval of Nordstrom shareholders.

This year, we demonstrated a **solid capacity for growth** and adaptation in a dynamic environment. Omnichannel and continuous improvement have been key components in offering Value-Added Services that enrich the shopping experience. Our financial structure, supported by a robust balance sheet, allows us to be prepared to face profitability challenges and achieve our growth objectives, guaranteeing stability and resilience in a dynamic environment. With this solid foundation, we are **paving the way to a greater future**, full of opportunities and growth for our company.

We appreciate the trust placed in us by our customers, employees, shareholders, suppliers, and tenants, under whom **El Puerto de Liverpool's** growth and profitability are consolidated.

Sincerely,

The Board of Directors
Mexico City,
December 31st, 2024

IN MEMORIAM
HENRY BRÉMOND PELLAT

With deep sadness, we mourn his passing. For decades, he dedicated his life to leading and forging our Company's path, guiding us with an unattainable vision and unwavering commitment. He served as Chairman of the Board from 1982 to 1995 and was appointed Chairman of the Patrimonial Board in 2003. His passion and dedication were the driving force behind our growth and inspired us to achieve goals that seemed impossible.

Beyond his outstanding business career, his warmth, generosity, and social commitment leave an enduring mark. True to his belief in developing people's potential through care, motivation, and appreciation, he became a mentor, leader, and inspiration to many.

His philanthropic work, focused on the care and development of people, education, and social assistance, further proving his commitment to the community and his desire to build a better world.

We say goodbye to a leader whose impact transcended business, an exceptional human being whose generosity and social commitment leaves an unforgettable memory for all. Thank you, Mr. Henry Brémond; your legacy will remain with us, inspiring us to continue building the future of our company with the same passion and dedication that you demonstrated in every step of your life.

Farewell, Henry Brémond Pellat.

The Footprint of El Puerto de Liverpool

THE FOOTPRINT OF EL PUERTO DE LIVERPOOL

'The Footprint of El Puerto de Liverpool's' model drives and integrates environmental, social, and corporate governance initiatives, aligned with our short, medium, and long-term objectives. Through this sustainability strategy, we establish our priorities based on the materiality study conducted in 2020 and updated in 2024, identifying key strategic actions for the company.

Our sustainability commitments are focused on 2030 and 2040 targets, which are monitored and reported annually to international organizations, ensuring accountability, transparency and continuous enhancement. Through this commitment, we reinforce our corporate integrity and participate in global indices such as the Dow Jones Sustainability, S&P/BMV Total ESG, Task Force on Climate-Related Financial Disclosures (TCFD), IC500, SASB, and GRI, reaffirming our leadership in sustainability.

For the purposes of this document, we will only highlight the significant achievements of 2024. To learn about the projects that are part of The Footprint of El Puerto de Liverpool's operation, you can find their progress on the sustainability website:

www.elpuertodeliverpool.mx/en/sostenibilidad.html

To positively impact our businesses and stakeholders, we align our efforts with the UN's 2030 Agenda to develop strategic initiatives.

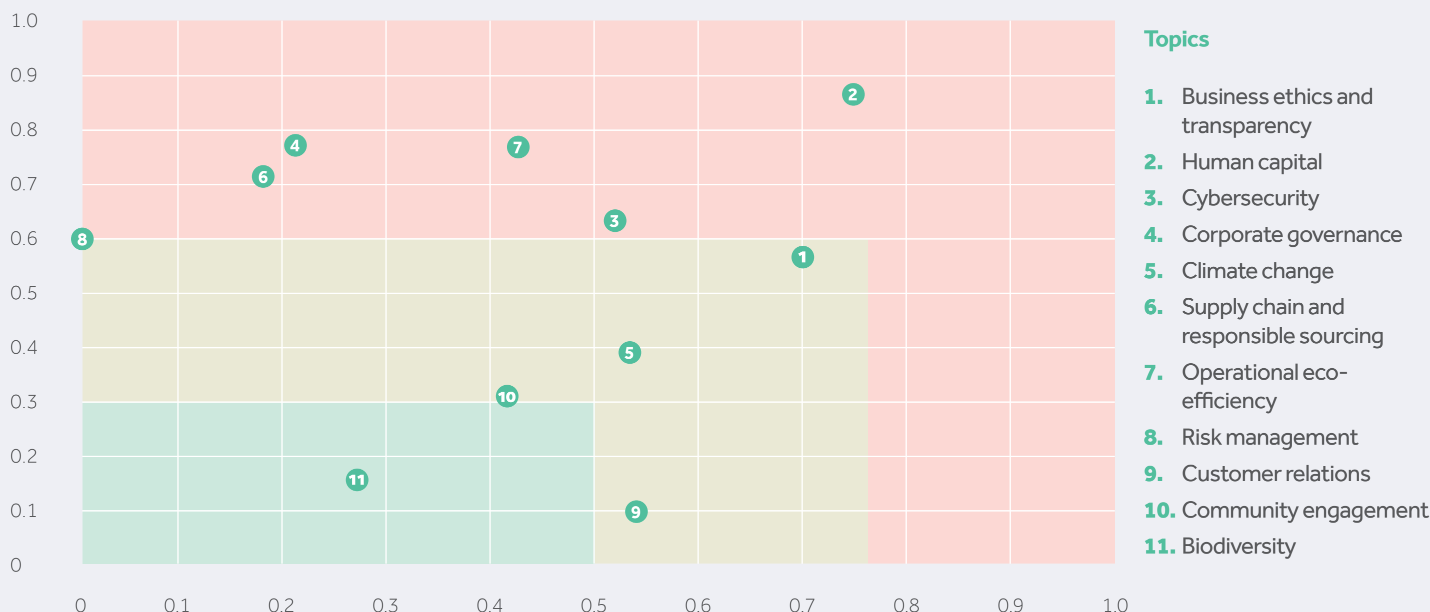
Double materiality

To further align with international standards and strengthen our sustainability strategy, we updated our materiality analysis. This enhanced approach allows us to evaluate material topics from two complementary perspectives:

Financial materiality, assesses the risks and opportunities associated with environmental, social, and governance (ESG) factors that can influence the company's performance and long-term value creation.

Impact materiality, analyzes the effect of our operations, products, and services on the environment and our stakeholders.

This analysis has led to a list of key material topics, covering environmental, social, and governance dimensions. Through in-depth interviews with internal representatives and stakeholders, we have identified and prioritized the most relevant themes for the company and its stakeholders.



This rigorous approach strengthens business resilience and ensures that our sustainability strategy proactively adapts to current and future challenges.

ENVIRONMENTAL

268,000 tCO_2e

achieved reduction (a **22.57%** advance) in our goal of neutralizing our carbon footprint by **2040**. We also achieved that **42.44%** of all recyclable waste is properly treated and a **21%** growth in optimization of water consumption and treatment.

We also advanced sustainable mobility by incorporating 44 electric vehicles into our fleet.

Energy and Emissions

All our business centers operate under an **ISO 14001** environmental management system, subject to internal audits. To enhance energy efficiency, we established a strategic work group and monitored consumption in Liverpool stores, allowing us to detect and correct increases. In 2024, we improved energy intensity, achieving a consumption of **101.23 kWh/m²**, a reduction of **3.51%** compared to 2023. We also advanced sustainable mobility by incorporating **44** electric vehicles into our fleet. We acquired wind, hydroelectric, and solar sources, covering **39.08%** of total renewable electricity consumption. By the end of 2024, we also added **29 locations** with solar panel installations, including **23** Liverpool Stores, **2** Corporate Offices, **2** Galerías Shopping Centers, and **2** Suburbia stores.

Water

We have **48 water conservation projects**, including the usage of treated and rainwater. In 2024, we reinforced these efforts with two new treatment plants in Insurgentes and Santa Fe, the connection to three external treatment plants, and the installation of two rainwater harvesting systems, reducing our dependence on potable water. In addition, we replaced **572 toilets** with water-saving models.

Waste Management

We promote waste separation to facilitate recycling and reuse within operational areas such as reception, warehouses, offices, and others. In addition, we work with suppliers that guarantee proper disposal and promote alternative uses. In 2024, we contributed to a roadmap to strengthen Integrated Waste Management, improving processes through the standardization and updating good practices. We added two biodigesters, reaching **10 units** that have diverted more than **90 tons** of organic waste from landfills. We also reinforced electronic recycling with **22 collection points** in Liverpool and Suburbia.

48 water conservation projects, including the usage of treated and rainwater. In 2024, we reinforced these efforts with two new treatment plants in Insurgentes and Santa Fe.

In 2024, we improved energy intensity, achieving a consumption of 101.23 kWh/m², a reduction of 3.51% compared to 2023. By the end of 2024, we also added 29 locations with solar panel installations.

SOCIAL

40.94% **of women**

in middle and senior management, to promote gender equality and proudly achieved **45,217** active users in our education programs.

As part of our promotion of education, our Product with a Cause program allocates 10% of the profits from sweet bread sales to Enseña por México A.C. This year, we raised 1.1 million pesos to benefit education.

Internal Training and Development

We prioritize our employees' continuous development through training that is aligned with their needs and aspirations. We offer educational programs through **Liverpool Virtual University** (UVL) at basic, intermediate, and higher levels, all endorsed by the Secretariat of Public Education (SEP), with constant growth in enrollment and a focus on student retention. Our Internship Program allows students to gain hands-on professional experience, with selected participants receiving employment offers upon completion. Additionally, we conduct semi-annual and annual performance evaluations to foster individual growth and ensure alignment with corporate strategy.

Well-being and Occupational Safety

We provide major medical expense insurance to protect the health of our employees, expanding coverage so that more employees have access to quality care. During this period, we conducted **29,869 preventive** medical screenings, trained **11,546 people** in first aid protocols, administered **27,439 vaccine doses**, and performed **63,296 health screenings** for early detection of potential conditions.

Diversity and Inclusion

We have conducted **20,405 awareness sessions** on Diversity and Inclusion and hired **35 individuals** from diverse groups, promoting an inclusive environment.

Wage Gap

We firmly believe in the importance of reducing the wage gap and promoting equal opportunities for men and women. We ensure that remuneration is based on performance and skills, without gender distinction.

Social Commitment

Our **"Producto con Causa"** (Product with a Cause) **program** allocates **10%** of the profits from the sale of sweet bread to education, raising **1.1 million pesos** in collaboration with Enseña por México, A.C. In addition, we organized **130 volunteer** activities with **2,290 participants**, benefiting 92 institutions. Through our reverse logistics program, we donated **$351.6 million pesos** in kind to social organizations in 2024.

Through Liverpool Virtual University (UVL) we offer educational programs at basic, intermediate, and higher levels, all endorsed by the Secretariat of Public Education (SEP) with constant growth in enrollment and a focus on student retention.

130 volunteer activities with 2,290 participants, benefiting 92 institutions.

CORPORATE GOVERNANCE

43% **of Private Label** products feature labeling that identifies sustainable attributes. Likewise, we have reached **94%** of suppliers have been audited through our Responsible sourcing program.

Respect for human rights is promoted through our policies and procedures, which are aligned with the Sustainable Development Goals.

Ethics, Transparency, Compliance, and Risk Management

We have implemented a biennial training program on the **Code of Conduct and Integrity**, covering topics such as anti-corruption, ethics, and anti-money laundering, supported by policies updated annually. This year, we reached **64.80%** of the target population. In addition, we uphold respect for human rights by creating policies and procedures aligned with the United Nations' Sustainable Development Goals and OECD Guidelines. As part of our ongoing efforts, we also generated our Fiscal Policy, and our Marketing and Advertising Policy. Our commitment to excellence in governance has earned us fifth place in the MERCO ESG ranking in the governance category.

Responsible Sourcing

Through audits and certifications, we ensure compliance with regulations and ethical standards among our suppliers. In addition, they must all adhere to our Code of Ethics, consolidating our commitment to responsible practices at the national and international levels. This year, **94%** of our Private Label suppliers met the highest standards.

Data Governance

We have an Information Resilience and Security plan based on risk management and regulatory compliance, reviewed and authorized by EPL's General Management. This plan encompasses robust information classification policies, secure development, access control, and technological security, strengthened by the continuous training of our employees. Our strategy is aligned with international standards such as ISO, NIST, CIS, SAMM, and LFPDPPP, and we are proud to be one of the first companies in Mexico certified under the latest version of **PCI-DSS 4.0.1** for card-present transaction processes.

With our mission of **"Security by Design,"** we guarantee that every project, from its conception, protects security, continuously evaluating strategic suppliers, technological components, and applications in our service chain. This approach allows us to anticipate risks and adopt proactive measures to maintain the trust of our customers. Additionally, we carry out periodic validations of our security controls through tests such as penetration tests and attack simulations, adapting to trends, emerging risks, and new threats.

Biennial training program on the Code of Conduct and Integrity, covering topics such as anti-corruption, ethics, and anti-money laundering.

"Security by Design" our mission guarantees that every project, from its conception, protects security. This approach allows us to anticipate risks.

Food Loss and Waste

To reduce food waste, we donate surplus food in good condition to food banks through **"Al Rescate Por México"** (To the Rescue for Mexico) and modernized our software to optimize the control of supplies, managing to donate more than **2,352 kilos** of food.

Innovation in Sustainable Products and Packaging

We offer products that are verified by the U.S. Cotton Trust Protocol (Trust Protocol) and with certifications by BCI (Better Cotton Initiative), reinforcing our commitment to sustainability as active members of both the Trust Protocol and BCI through our commercial units, Liverpool and Suburbia. To facilitate their identification, we optimize labeling and communication in our campaigns, such as Modo Responsable ("Responsible Mode") at Liverpool and Acciones que suman más ("Actions That Add Up"). Additionally, we have strengthened our Comprehensive Sustainable Packaging System with the following initiatives:

Certified packaging

We use materials backed by certifications such as FSC (Forest Stewardship Council), ensuring responsible sourcing. Currently, 100% of our private-label shoe boxes at both Suburbia and Liverpool are FSC-certified. In terms of tags, we have placed 100% in Suburbia and 99.44% in Liverpool.

Efficient design

We have optimized packaging based on product characteristics, especially for remote sales. We standardized branding across all businesses on our shipping boxes and created guidelines for redesigning private-label packaging at Liverpool.

Carrier Bags

Our biodegradable and naturally sourced institutional kraft bags are made from 100% recycled material. We currently purchase 35 million carrier bags, 66% of which have some sustainable attribute, including those made from PCR material.

100% certification for our shoe boxes for private labels, both in Suburbia and Liverpool, use materials certified by the FSC.

66% of our carrier bags feature sustainable attributes, such as the institutional kraft bags made from 100% recycled material.

We promote more responsible consumption by offering products with sustainable attributes and certifications such as USCTP and BCI.

Sustainable materials

We use recycled and recyclable packaging. We implemented the supply of non woven fabric bags which contain 50% PCR (post consumer recycled) material. In addition, our carriers also include sustainable materials with PCR content.

Box reuse

To reinforce these initiatives, we encourage customer awareness by inviting them to join our sustainability actions. For example, at Click & Collect locations in the Bajío region, we have implemented box collection and reuse programs, allowing customers to return packaging for reuse in future purchases.

Financial Access

We facilitate access to credit for people with credit history and those with little or no credit history, ensuring that each customer can find a tailored financial solution that meets their needs.

INDEPENDENT AUDITOR'S REPORT

pwc

To the Stockholders and Board of Directors of El Puerto de Liverpool, S. A. B. de C. V.

Opinion

We have audited the consolidated financial statements of El Puerto de Liverpool, S. A. B. de C. V., and its subsidiaries (the Company), which comprise the consolidated statement of financial position as at December 31, 2024, and the consolidated statements of comprehensive income, of changes in stockholders' equity and of cash flows for the year then ended and the notes to the consolidated financial statements, comprising the material accounting policy information and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Company as at December 31, 2024, and its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants ("IESBA Code") and the ethical requirements of the Professional Code of Ethics of Mexican Institute of Public Accountants that are relevant to our audit of the financial statements in Mexico. We have fulfilled our other ethical responsibilities in accordance with the IESBA Code and the ethical requirements of the Professional Code of Ethics of Mexican Institute of Public Accountants. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Recoverable value of intangible assets with an indefinite life

As mentioned in Note 14 to the consolidated financial statements, the Company performs annual tests on the recoverable value of its intangible assets with an indefinite life (goodwill, brands and others).

These tests consist of comparing that the estimate of the projected cash flows for the Cash Generating Unit (CGU) to which the intangible assets are allocated is higher than the book value of said assets.

We focused on intangible assets with indefinite lives due to the importance of their balance ($13,278 million pesos as of December 31, 2024) compared to the consolidated financial statements, since the estimation of projected cash flows involves the application of significant judgments by Management to determine the assumptions and premises used. In particular, we concentrated our audit efforts on:

1) the methodology used to estimate the recoverable value, and 2) the significant assumptions used to estimate the projected cash flows, such as: the estimated rate of growth of sales, the projected EBITDA (Earnings Before Income Tax, Depreciation and Amortization), and the discount rate and the terminal value, which required the application of a greater judgment, when evaluating the impact on the projected results.

We evaluated the cash flow projections prepared by Management and the processes used to prepare them, comparing said projections to the historical results, including years prior to the pandemic and budgets approved by the Company's Board of Directors.

We compared the actual results of the current year with the respective budget to rule out the fact that any assumption included in the cash flow projections could be considered too optimistic.

With the support of our valuation experts, we compared:

- The methodology used to estimate the recoverable value to that commonly used in the market for this type of assets.
- The growth of sales, the terminal value and the EBITDA to the historical results of the business and to independent market sources of comparable entities of the industry to which the Company belongs.
- The discount rate used to discount future cash flows to an estimated market rate considering the Company's leverage level, the expectation of leverage in the short and medium terms, and the optimal level of the industry

We discussed the sensitivity analysis with Management and assessed the degree to which the assumptions need to be modified for impairment to occur.

Additionally, we evaluated the consistency of the disclosures included in the notes to the financial statements with the information provided by Management.

Other Information

Management is responsible for the other information. The other information comprises the annual report presented to Comisión Nacional Bancaria y de Valores (CNBV) and the annual information presented to shareholders, which are expected to be made available to us after the date of this auditor's report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we will not express an opinion or any other form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the other information not yet received, we will issue the report required by the CNBV and if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and, if required, describe the issue in our report.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRS Accounting Standards and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business unit within the group to forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

PricewaterhouseCoopers, S. C.

Arturo Elizondo O.
Audit Partner
Mexico City, March 7, 2025

REPORT OF THE AUDIT AND CORPORATE PRACTICES COMMITTEE

Mexico City, February 28, 2025

To the Board of Directors of
El Puerto de Liverpool, S. A. B. de C. V.

We, the undersigned, appointed as members of the Audit and Corporate Practices Committee of this company (the "Committee"), present this report on the activities carried out pursuant to article 43 of the Securities Market Act.

During the period 2024 - 2025 the Committee met four times during the year, addressing, among others, the following points:

I. The General Shareholders' Meeting held March 12, 2024, appointed Mr. Javier Arrigunaga chairman of the Audit and Corporate Practices Committee for fiscal year 2024. Additionally, the Board of Directors appointed Messrs. Juan Miguel Gandoulf and José Cohen as Committee members.

II. On audit matters:

a) We evaluated the external audit plan and proposal for professional services accepted by Management. Furthermore, pursuant to the "General provisions applicable to entities and issuers supervised by the National Banking and Securities Commission that engage external audit services for basic financial statements," we recommended to the Board of Directors that the firm PricewaterhouseCoopers be hired as external auditor, through its audit partner Arturo Elizondo Olascoaga, CPA, as External Independent Examiner, to audit the financial statements of the Company and its Subsidiaries for the fiscal year ended December 31, 2024. Additionally, the Committee learned of the additional services this firm supplies and the mechanisms for safeguarding its independence and avoiding self-review, concluding that such mechanisms are appropriate.

b) We evaluated and found that the Company has internal and external mechanisms that provide reasonable certainty of compliance with the Laws and Regulations applicable to it.

c) We were apprised of the Company's bookkeeping policies as well as their impact on the figures contained in the financial statements as of December 31, 2024 and 2023, ensuring that the financial information was duly presented.

d) We followed up on the organization and functions of the Company's Internal Audit Department; received its annual report of activities for the year 2024, the relevant findings, and its audit plan for the year 2025.

e) We ascertained that the company has operating systems, policies and procedures by which it may be considered to have an appropriate climate of internal control and bookkeeping.

f) We were apprised of the Company's degree of adherence to the Code of Best Corporate Practices, recommended by the Mexican Stock Exchange, per the report with information at December 31, 2023, filed on May 29, 2024.

g) We were informed of any lawsuits and litigations in progress, as well as the results of those concluded during the period in question.

h) We reviewed the consolidated financial statements as of December 31, 2024, and the notes thereto.

i) We were apprised of the status of the reserves and estimates included in the financial statements at December 31, 2024.

j) We were informed of the observations and recommendations of the External Auditors, related to their examination of the consolidated financial statements as of December 31, 2023.

k) We reviewed the statistics on transactions reported to the authorities pursuant to anti-money laundering regulations.

l) We were informed about the statistics regarding reports to confidential complaint mechanisms, their follow-up, the nature of the reports, the results of the investigations, and the resulting actions.

III. On the matter of corporate practices:

a) We consider the performance of senior management to have been appropriate and efficient, taking into account the circumstances under which they have discharged their responsibilities.

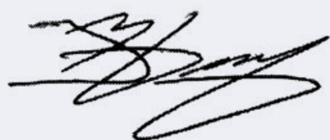
b) We were informed of transactions with related parties, and found that the amounts thereof were not significant with respect to the Company's operations, and that they were conducted in accordance with market conditions.

c) We performed an overall review of the criteria by which overall remuneration is determined for key Company's directors; we consider such remuneration to be reasonable and consistent with market conditions.

As a result of the activities carried out by this Committee, and having heard the opinion of the Company's Independent Auditors, we hereby recommend that the Board of Directors submit the financial statements of El Puerto de Liverpool, S.A.B. de C.V. and Subsidiaries as of December 31, 2024, in the terms in which such statements have been prepared and presented by Company management.

Sincerely,

The Audit and Corporate Practices Committee



Juan Miguel Gandoulf

Javier Arrigunaga

José Cohen

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

Year ended December 31, 2024 and 2023
Thousands of pesos, unless otherwise specified

NOTE 1 - GENERAL INFORMATION:

El Puerto de Liverpool, S. A. B. de C. V., and subsidiaries (the Company or the Group) operate a chain of department stores, founded in 1847, engaged in selling a broad variety of products such as clothes and accessories for men, women and children, household goods, furniture, cosmetics and other consumer products. The Company is registered on the Mexican Stock Exchange and has an important presence in all Mexican Republic. As of December 31, 2024, the Company operated a total of 124 department stores under the Liverpool name and 40 stores with the Liverpool Express format: 126 specialty boutiques and 194 stores with the Suburbia name. In 2024, 8 stores began operations under the name of Suburbia (Vallarta "Macroplaza", Jalisco, Cuernavaca "Galerias", Morelos, Apodaca "Huinalá" Nuevo León, "Reynosa", Tamaulipas, Veracruz "Divertiplaza", Veracruz, Nogales, "Nogales Mall", Sonora, "Patio Santa Fe", Ciudad de México, Mérida "Mérida X'Cumpich", Yucatán). In 2023 10 stores began operations under the name of Suburbia (Tijuana "Península", Baja California; "Navojoa", Sonora; Guadalajara "Atemajac"; "Fray Antonio", Jalisco; Tula "Plaza Boulevard", Hidalgo; Tampico "Altama", Tamaulipas, Xalapa "Plaza Jardines", Veracruz "Coyol", Veracruz; Mérida "Calle 56", Yucatán; "Ciudad del Carmen", Campeche) . Likewise, 1 department stores began operations under the Liverpool format ("Tepeyac", Ciudad de México). After Hurricane Otis on October 25, 2023 in Acapulco, Guerrero, 2 Liverpool stores were affected and remained closed until October 2024 while necessary repairs were carried out.

The Company grants its customers financing through the following cards: 1) "Liverpool", with which customers can buy exclusively at Company's stores; 2) "Liverpool Premium Card (LPC"), with which cardholders can purchase goods and services both in the chain's stores and boutiques and any of the establishments affiliated with the VISA system worldwide; 3) "Suburbia", made up of two cards, the first with which customers can purchase exclusively in stores under the Suburbia commercial segment and the second ("Suburbia VISA") with which cardholders can purchase goods and services in stores in the Suburbia chain as in any of the establishments affiliated worldwide to said system.

Additionally, at December 31, 2024 and 2023, the Company is a partner, stockholder or co-owner of shopping malls and holds an interest in 29 different malls, through which it leases commercial space to tenants engaged in a broad number of businesses.

The Company's headquarters and main place of business is:
Mario Pani 200
Santa Fe, Cuajimalpa
Mexico City
05348

NOTE 2 - SUMMARY OF MATERIAL ACCOUNTING POLICIES:

These policies have been consistently applied to all the years presented, unless otherwise stated. The following is a summary of the main accounting policies applied in preparing the consolidated financial statements:

2.1 Basis of preparation

The accompanying consolidated financial statements have been prepared in accordance with IFRS Accounting Standards (International Financial Reporting Standards as issued by the IASB ("IFRS Accounting Standards")). IFRS Accounting Standards comprise the following authoritative literature:

- IFRS accounting standards,
- IAS standards, and
- Interpretations issued by the IFRS Interpretations Committee (IFRIS) or its predecessor body, the Standards Interpretations Committee (SIC). Pursuant to the amendments to the Rules for Public Companies and Other Participants in the Mexican Securities Market issued by the National Banking and Securities Commission on January 27, 2009, the Company is required to prepare its financial statements using IFRS Accounting Standards as its accounting framework.

The consolidated financial statements have been prepared on a historical cost basis, except for cash flow hedging financial instruments, trading derivatives, investments in government securities and financial assest at fair value through other comprensive income are measured at fair value.

Preparing consolidated financial statements in accordance with IFRS requires the use of certain critical accounting estimates. The areas involving a greater degree of judgment or complexity or the areas in which the assumptions and estimates are significant for the consolidated financial statements are described in Note 4.

2.1.1 New standards and changes adopted by the Company

The Company has applied the following standards and interpretations for the first time to financial reporting periods commencing on or after 1 January 2024:

- Classification of Liabilities as Current or Non-current and Non-current liabilities with covenants – Amendments to IAS 1. The amendment had an impact on the Company's disclosures, for further details see Note 18.
- Lease liability in sale and leaseback – Amendments to IFRS 16. This modification had no material impact on the amounts recognized in prior periods and is not expected to significantly affect the current or future periods.
- Supplier Finance Arrangements - Amendments to IAS 7 and IFRS 7. The amendment had an impact on the Company's disclosures, for further details see Notes 3.3.1 and 16.
- As at 30 June 2024, the following agenda decisions were issued that might be relevant for the preparation of annual reports in 2024. This decision establishes that specific revenues and expenses must be disclosed for each segment, if they are included in the segment performance measure reviewed by the company's highest decision-making authority, which in this case is the Earnings Review Committee, regardless of whether such revenues and expenses are not separately presented to this committee. The decision also emphasizes that the material items of revenues and expenses that must be disclosed are not limited to unusual or non-recurring items. As of December 31, 2024, the company continues in the process of analyzing the impacts that this agenda decision will have on the information disclosed for the segments and will be adopted during 2025, which will include any disaggregation of revenues, costs and expenses by segment that management considers necessary to comply with this requirement.

2.1.2 New standards and interpretations not yet adopted

The following standards and interpretations had been issued but were not mandatory for annual reporting periods ending on 31 December 2024 and have not been early adopted by the Company. The Company's assessment of the impact of these new standards and amendments is presented below.

a) Amendments to IAS 21 - Lack of Exchangeability (effective for annual periods beginning on or after January 1, 2025).

In August 2023, the IASB amended IAS 21 to add requirements to help entities to determine whether a currency is exchangeable into another currency, and the spot exchange rate to use when it is not. Prior to these amendments, IAS 21 set out the exchange rate to use when exchangeability is temporarily lacking, but not what to do when lack of exchangeability is not temporary. The Company does not expect these amendments to have a material impact on its operations or financial statements.

b) Amendments to the Classification and Measurement of Financial Instruments - Amendments to IFRS 9 and IFRS 7 (effective for annual periods beginning on or after January 1, 2026).

On 30 May 2024, the IASB issued targeted amendments to IFRS 9 Financial Instruments and IFRS 7 Financial Instruments: Disclosures to respond to recent questions arising in practice, and to include new requirements not only for financial institutions but also for corporate entities. These amendments:

- Clarify the date of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an electronic cash transfer system;
- Clarify and add further guidance for assessing whether a financial asset meets the solely payments of principal and interest (SPPI) criterion;
- Add new disclosures for certain instruments with contractual terms that can change cash flows (such as some financial instruments with features linked to the achievement of environment, social and governance targets); and
- Update the disclosures for equity instruments designated at fair value through other comprehensive income (FVOCI).

c) IFRS 19, "Subsidiaries without Public Accountability: Disclosures" (effective for annual periods beginning on or after January 1, 2027).

This new standard works alongside other IFRS Accounting Standards. An eligible subsidiary applies the requirements in other IFRS Accounting Standards except for the disclosure requirements; and it applies instead the reduced disclosure requirements in IFRS 19. IFRS 19's reduced disclosure requirements balance the information needs of the users of eligible subsidiaries' financial statements with cost savings for preparers. IFRS 19 is a voluntary standard for eligible subsidiaries

d) IFRS 18, "Presentation and Disclosure in Financial Statements" (effective for annual periods beginning on or after January 1, 2027).

This is the new standard on presentation and disclosure in financial statements, which replaces IAS 1, with a focus on updates to the statement of profit or loss. The key new concepts introduced in IFRS 18 relate to: the structure of the statement of profit or loss with defined subtotals; requirement to determine the most useful structure summary for presenting expenses in the statement of profit or loss, required disclosures in a single note within the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general.

Management is currently assessing the detailed implications of applying the new standard on the Company's consolidated financial statements. From the high-level preliminary assessment conducted, the following potential impacts have been identified:

- Although the adoption of IFRS 18 will have no impact on the Company's net income, the Company expects that the grouping of income and expense items in the income statement into the new categories will impact the way operating income is calculated and reported. From the high-level impact assessment conducted by the Company, the following items could potentially impact operating income:
    - Foreign exchange differences that are currently aggregated into operating income may need to be disaggregated, with some foreign exchange gains or losses presented below operating income.
    - IFRS 18 has specific requirements on the category in which derivative gains or losses are recognized, which is the same category as the income and expenses affected by the risk being managed with the derivative. Although the Company currently recognises some gains or losses in operating profit and others in finance costs, there could be a change in where these gains or losses are recognised, and the Company is currently assessing the need for a change.

- The items presented in the primary financial statements could change as a result of the application of the "useful structured summary" concept and the enhanced principles on aggregation and disaggregation. In addition, since goodwill will be required to be presented separately in the statement of financial position, the Group will disaggregate goodwill and other intangible assets and present them separately in the statement of financial position.

- The Company does not expect there to be a significant change in the information currently disclosed in the notes because the requirement to disclose material information remains unchanged; however, the way in which information is grouped could change as a result of the aggregation/disaggregation principles. In addition, there will be significant new disclosures required for:

  - Performance measures defined by management;

  - A breakdown of the nature of expenses for items presented by function in the operating category of the income statement – this breakdown is only required for certain natures of expenses; and

  - For the first annual period of application of IFRS 18, a reconciliation of each income statement item between the restated amounts presented using IFRS 18 and the amounts previously presented using IAS 1.

- From a cash flow statement perspective, there will be changes in the way interest received and interest paid are presented. Interest paid will be presented as financing cash flows and interest received as investing cash flows, which is a change from the current presentation as part of operating cash flows.

These standards or amendments are not expected to have a material impact on the Company in future reporting periods and on foreseeable future transactions, except for IFRS 18, the Company is in the process of analyzing the impact of applying the new standard as of its mandatory effective date of January 1, 2027. Retrospective application is required, so comparative information for the year ending December 31, 2026 will be restated in accordance with IFRS 18.

2.2 Consolidation

a. Subsidiaries

Subsidiaries are all entities over which the Company has control. The Company controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date control is transferred to the Company. They are deconsolidated from the date that control ceases.

The balances and unrealized profits or losses in intercompany operations are eliminated in the consolidation process. When necessary, accounting policies have been modified in subsidiary entities in order to be consistent with the policies adopted by the Company. The following is a summary of the Company's interest in subsidiaries at December 31, 2024 and 2023:

Company	Shareholding	Activity
Operadora Liverpool, S. A. de C. V.	99.99%	Sub-holding of Distribuidora Liverpool, S. A. de C. V. and other companies that operate the department stores.
Bodegas Liverpool, S. A. de C. V. and Almacenadora Liverpool, S. A. de C. V.	99.99%	Storage and distribution of merchandise.
Servicios Liverpool, S. A. de C. V.	99.99%	Advisory and administrative services provided to the Company's subsidiaries.
Suburbia, S. de R. L. de C. V.	99.99%	Holding company and other service providers and real estate companies.
Ten real estate companies	99.93%	Development of real estate projects, mainly shopping malls.

b. Associates

Associates are all those entities over which the Company exercises significant influence, but not control. Usually, associates are those of whom the Company holds between 20% and 50% of the voting rights. Investments in associates are recorded by the equity method and are initially recognized at cost. The Company's investment in associates includes goodwill (net of any accumulated impairment loss, if any) will be impaired, and impairment losses will have occurred if, and only if, there is objective evidence of impairment as a result of one or more events that occurred after initial recognition identified at the time of the acquisition.

The Company's equity in the profits or losses following the acquisition of associates is recognized in the statement of income and its equity in the comprehensive results of an associated company, is recognized in the Company's "Other comprehensive results". Post-acquisition accrued movements are adjusted against the book value of the investment. When the Company's equity in the losses of an entity equals or exceeds its interest in the entity, including any unsecured account receivable, the Company does not recognize a more significant loss, unless it has incurred obligations or has made payments on behalf of the associated. The associated companies' accounting policies have been modified, when necessary, for consistency with the policies adopted by the Company.

2.3 Segment information

Segment information is presented to be consistent with the internal reports provided to the Financial Review Committee, which is the body responsible for making operating decisions, assigning resources and evaluating the operating segments' yield. See Note 24.

2.4 Foreign currency transactions

a. Functional and presentation currency

The items included in each of the subsidiaries' financial statements are stated in the currency of the primary economic environment in which the entity operates (the functional currency).

The currency in which the consolidated financial statements of the Company are presented is the Mexican peso, which in turn is also the functional currency.

b. Transactions and balances

Foreign currency transactions are converted to the functional currency using the exchange rates in effect on the transaction or valuation dates when the items are re-measured. The profits and losses resulting from such transactions and from other conversion at the exchange rates in effect at the year-end of all monetary assets and liabilities denominated in foreign currency are recognized as exchange fluctuations under foreign exchange loss or gain in the statement of comprehensive income.

2.5 Financial assets

2.5.1 Classification

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value, and
- Those to be measured at amortized cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in the statement income or other comprehensive income. See Note 2.7. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

2.5.2 Recognition and derecognition

Regular purchases and sales of financial assets are recognized on trade-date, the date on which the Company commits to purchase or sell the asset. Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

2.5.3 Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. The transaction costs of financial assets at fair value through profit or loss are recorded in the statement of income.

The subsequent measurement of financial assets depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. The Company classifies its financial assets according to the following category:

- Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in the statement income and presented in other gains (losses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of income.

- Evaluate Fair value through other comprehensive income: Equity instruments that are not held for trading purposes, and for which the Company has made an irrevocable election at initial recognition to recognize changes in fair value through OCI. These are strategic investments and the Company considered that this classification was more relevant. There is no subsequent reclassification of fair value gains and losses to results after the derecognition of the investment. Dividends from such instruments continue to be recognized in results as other income when the Company's right to receive payments is established.

2.6. Impairment of financial assets

2.6.1 Assets carried at amortized cost

The Company prospectively assesses the expected credit losses associated with its financial assets at amortized cost, considering the results of the portfolio performance evaluation and the objective evidence of impairment. Increases to this provision are recorded in expenses and presented separately in the income statement. See Note 3.3.2.

2.7 Derivative financial instruments and hedging activities

Derivative financial instruments are initially recognized at fair value on the date the derivative financial instrument contract is concluded and subsequently measured at fair value. The method to recognize the utility or loss of changes in the fair values of derivative financial instruments depends on whether they are designated as hedging instruments, and if so, the nature of the item being hedged. The Company only has financial instruments derived from cash flow and trading hedges.

The Company documents at the beginning of the transaction the relationship between the hedging instruments and the items hedged, as well as its objectives and the Risk Management strategy that support its hedging transactions. The Company periodically documents whether the derivative financial instruments used in hedging transactions are highly effective in covering the cash flows of the hedged items.

The fair values of derivative financial instruments used as hedging and trading instruments are disclosed in Note 10. The total fair value of derivative financial instruments used as hedging instruments is classified as non-current assets or liabilities when the maturity of the Remaining of the hedged item is greater than 12 months and is classified as current assets or liabilities when the maturity of the remainder of the hedged item is less than 12 months. Trading derivative financial instruments are classified as current assets or liabilities.

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges are recognized in other comprehensive income. The amounts accumulated in stockholders' equity are reclassified in the periods in which the hedged item affects the result. The gain or loss related to the effective part of the interest rate swaps that hedge the loans is recognized in results within financial costs (income) at the same time that the interest expense of the covered loans is recognized.

When a hedging instrument matures or is sold, or when the hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time is recognized in the consolidated statement of comprehensive income in financial costs (income).

Derivative instruments designated as hedges cover, in a proportion of one to one and on the same dates, the flows of interest and principal of the loans covered, so that their correlation is exactly 1 and therefore their coverage effectiveness is 100%.

2.8 Other financial assets

Other financial assets include cash delivered as collateral required by some derivative financial contracts that correspond to margin calls which are measured at fair value.

These collaterals are offset with the derivative financial instrument if the right to offset the recognized amounts is legally enforceable and there is the intention to settle them on a net basis or to realize the asset and pay the liability simultaneously. Some financial institutions may require collateral deposits or margin calls based on derivative financial instrument contracts if the market value of our derivatives that hedge foreign exchange risks exceeds a previously agreed contractual limit, so we are subject to responding to these margin calls that require covering a substantial amount of cash and may reduce the funds available for our operations or other capital needs. As of December 31, 2024 and 2023, there were requirements to make these deposits as collateral. During fiscal year 2024, the Company received the flows from the margin call that was generated at the end of 2023 by these financial instruments. See Note 10.

2.9 Cash and cash equivalents

For purposes of presentation in the cash flows statement, cash and cash equivalents include cash in hand, demand deposits in financial institutions, other short-term investments, highly liquid with original maturities of three months or less that are easily convertible into cash and that are subject to insignificant risks of changes in value, and bank overdrafts. See Note 7. The cash equivalents are represented by investments in government instruments.

Cash and cash equivalents include amounts generated by credit, debit card and digital media sales transactions that are settled at the beginning of the following month in the amount of $705,875 and $1,747,043 as of December 31, 2024 and 2023, respectively. These cash equivalents are not subject to credit risk.

2.10 Inventories

Inventories are recorded at cost or net realizable value whichever is less. The cost includes the cost of the merchandise plus the costs of importation, freight, maneuvering, shipping, storage in customs and distribution centers, decreased in the value of the respective returns. The net realizable value is the estimated sale price in the normal course of operations minus the estimated costs to make the sale. The cost is determined using the average cost method.

Physical inventory counts are conducted periodically at the stores, boutiques and distribution centers and inventory records are adjusted to the results of physical inventory counts. Historically, due to the Company's loss prevention programs and control procedures, stockouts and shrinkage of inventories have been immaterial.

2.11 Investment properties

Investment properties are real property (land and buildings) held to obtain economic benefits through a collection of rent or for capital gains, and are initially valued at cost, including transaction costs. After their initial recognition, investment properties continue to be valued at cost, less accumulated depreciation and impairment losses, if any.

The Company owns shopping malls that house their department stores, as well as commercial space it leases to third parties. In such cases, only the portion leased to third parties is considered as an investment property and the Company's stores are recorded as property, furniture and equipment, in the statement of financial position. See Note 12.

Depreciation is calculated by the straight-line method to distribute the cost at its residual value over their remaining useful lives, as follows:

Buildings:

Shell and core stage of construction	75 years
Structural work	75 years
Fixed facilities and accessories	35 years

2.12 Property, furniture and equipment

The items comprising property, furniture and equipment are recognized at their historical cost, less depreciation and impairment losses. The historical cost includes expenses directly attributable to the acquisition of these assets and all expenses related to the location of assets at the site and in the conditions necessary for them to operate as expected by Management.

Expansion, remodeling, and improvement costs represent an increase in capacity and are recognized as an extension of the useful life of goods are capitalized. Maintenance and repair expenses are charged to income for the period they are incurred. The carrying amount of replaced assets is derecognized when they are replaced, recording the entire amount in the consolidated statement of income.

Works in progress represent stores under construction and includes investments and costs directly attributable to the start-up of operations. These investments are capitalized upon opening the store and depreciation is computed from that point.

The land is not depreciated. Depreciation of other assets recognized in administrative expenses is calculated based on the straight-line method to distribute its cost at its residual value during its estimated useful lives, as follows:

Buildings:

Shell and core stage of construction	75 years
Structural work	75 years
Fixed facilities and accessories	35 years

Other assets:

Furniture and equipment	10 years
Computer equipment	3 years
Transportation equipment	4 years
Leasehold improvements	Over the term of the lease Agreement

The Company assigns the amount initially recorded with respect to an element of property, furniture and equipment, in its different significant parts (components) and depreciates each separately.

The residual values and useful life of the Company's assets are reviewed and adjusted, if necessary, at the date of each consolidated statement of financial position. See Note 13.

The book value of an asset is written off at its recovery value if the book value of the asset is greater than its estimated recovery value. See Note 2.14.

Gains and losses from the sale of assets are due to the difference between income from the transaction and the book value of the assets they are included in the statement of income as other income.

2.13 Intangible assets

i. Goodwill

Goodwill in acquisitions of subsidiaries is included in intangible assets. Goodwill is not amortized but goodwill impairment reviews are carried out annually or more frequently if events or changes in circumstances indicate a possible impairment and are recorded at cost less accumulated impairment losses. Gains and losses on the disposal of a Company include the carrying value of the goodwill related to the Company sold.

To verify impairment, the goodwill acquired in a business combination is assigned to each of the Cash Generating Units (CGU), which is expected to benefit from the synergies of the combination. Each unit to which the goodwill has been assigned represents the lowest level within the entity to which goodwill is controlled for internal management purposes. Goodwill is controlled at the operating segment level.

ii. Brands

The brands acquired individually are shown at historical cost, while those acquired through business combinations are recognized at their fair value at the date of acquisition. Brands are not amortized and are subject to impairment tests annually. To date, no factors limiting the useful life of these assets have been identified. The brands are considered to have an

indefinite useful life due to the positioning they have in the market, some of them, for more than 40 years and because the Company's experience and market evidence indicate that they will continue to generate cash flows for the Company in indefinite form. Additionally, the Company estimates that there are no legal, regulatory or contractual considerations that limit the useful lives of such brands.

iii. Development of computer systems and programs

Activities involved in the development of computer systems and programs include the plan or design and production of a new or substantially improved software or computer system. Expenses pertaining to the development of computer programs are only capitalized when they meet the criteria as shown below.

- Management intends to complete the computer program and use it;
- It is technically possible to complete the computer program so that it is available for use;
- The Company has the capacity to use the computer program;
- It can be proven that the computer program will generate future economic benefits;
- The Company has the technical, financial and other resources necessary to conclude the development of the program for its use, and
- Expenses related to the development of the computer program can be reliably measured.

The licenses acquired for the use of programs, software and other systems are capitalized at the value of the costs incurred for their acquisition and preparation for their use. Other development costs failing to meet these criteria and research expenses, as well as maintenance expenses are recognized and expensed as they are incurred. Development costs previously recognized as expenses are not recognized as assets in subsequent periods.

The costs incurred in the development of software recognized as assets are amortized over their estimated useful lives, recognized in administrative expenses, which fluctuate between five (licenses and fees) and ten years (new IT developments). See Note 14.

iv. Other intangibles

As a result of the acquisition of Suburbia, the Company recognized an intangible derived from the knowledge of the operative process of purchases, commercial planning, product design and commercialization (CATMex). This intangible asset was recognized at fair value at the date of acquisition and was considered indefinite based on the expectation of generating future economic benefits and is subject to annual impairment tests.

2.14 Impairment of non-financial assets

Non-financial assets subject to depreciation are subject to impairment testing. Impairment losses correspond to the amount at which the book value of the asset exceeds its recovery value. The recovery value of assets is the greater of the fair value of the asset less costs incurred for its sale and its value in use. For impairment assessment, assets are grouped at the lowest levels at which they generate identifiable cash flows (cash-generating units). Non-financial assets subject to write-offs due to impairment are valued at each reporting date to identify possible reversals of the impairment.

Goodwill and intangible assets with an indefinite useful life are not subject to amortization and are subjected annually to impairment tests, or more frequently, if there are events or circumstances that indicate that they could be affected. Other assets are subject to impairment tests when events or changes in circumstances indicate that the carrying amount may not be recovered. An impairment loss is recognized for the book value of the asset that exceeds its recoverable value. Recoverable value is the higher of the fair value of an asset less its disposal costs and its value in use. For assessing impairment, assets are grouped into the lowest levels for which there are separately identifiable cash flows, which are largely independent of the cash flows of other assets or groups of assets (cash generating units). Impaired non-financial assets other than goodwill are reviewed to determine the possible reversal of the impairment at the end of each reporting period.

2.15 Accounts payable

Accounts payable are payment obligations for goods or services acquired from suppliers in the normal course of business. Accounts payable are classified as current liabilities if payment is due within one year or less. Otherwise, they are presented as non-current liabilities.

The Company has established financing programs with suppliers, through which they can discount their documents with different financial institutions. If the contractual terms and conditions modify the nature of the liability, the trade payable is derecognized and a financial debt is recognized; otherwise, the trade payable to suppliers is maintained. For purposes of the cash flow statement, if management determines that the amounts are part of the working capital used in the entity's main income-generating activities, the cash outflows to settle the liability are presented within operating activities at the time the company settles the banking institution. See Note 16.

Accounts payable are initially recognized at fair value and subsequently remeasured at amortized cost using the effective interest rate method.

2.16 Loans from financial institutions, issues of stock certificates and senior notes

Loans from financial institutions, issues of stock certificates and senior notes are initially recognized at fair value, net of costs incurred in the transaction. This financing is subsequently recorded at its amortized cost. Differences, if any, between the funds received (net of transaction costs) and the redemption value are recognized in the statement of income during the period of the financing, using the effective interest rate method.

2.17 Cancelation of financial liabilities

The Company cancels financial liabilities if, and only if, the Company's obligations are met, canceled or matured.

2.18 Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of cash flows to settle the obligation and the amount can be estimated reliably required. The amount recognized as a provision is the best estimate on the reporting period, the expenditure required to settle the present obligation, the payment is made by the amount assessed rationally, the Company has to pay to settle the obligation to the end of the reporting period under review, or to transfer it to a third party at that time. See Note 17.

2.19 Income tax

The income tax comprises currently payable and deferred taxes. The tax is recognized in the statement of income, except when it relates to items applied directly to other comprehensive income or losses or to stockholders' equity. In this case, the tax is also recognized in other items pertaining to comprehensive income or directly to stockholders' equity, respectively.

Deferred income tax is recognized on temporary differences arising from comparing the book and tax values of all assets and liabilities of the Group. However, deferred tax liabilities are not recognized if it arises from the initial recognition of goodwill; nor deferred income tax is recognized if it arises from the initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the end of the year and are expected to apply when the deferred income tax asset is realized, or the deferred income tax liability is settled.

The charge corresponding to taxes on profits currently payable is calculated according to the tax laws approved as of the consolidated statement of financial position date in Mexico and in the countries where the Company's associates operate and generate a taxable base. Management periodically evaluates their tax positions with respect to tax refunds as tax laws are subject to interpretation. According to this assessment as of December 31, 2024 and 2023, there are no uncertain positions.

The deferred tax asset is only recognized to the extent that future tax benefits are likely to be achieved and can be applied against any temporary differences in liabilities.

The deferred tax on profits is generated on the basis of the temporary differences between investments in subsidiaries and associates, except when the Company can control when those temporary differences are reinvested, and the temporary difference is unlikely to be reinvested in the foreseeable future.

The balances of deferred asset and liabilities, tax-on-profits, are offset when there is a legal right to offset current tax assets against current tax liabilities and when the deferred tax-on-profit assets and liabilities relate to the same tax entity, or different tax entities where the balances are to be settled on a net basis. See Note 23.

2.20 Employee benefits

a. Pensions and seniority premium

The Company's subsidiaries operate pension plans and seniority premiums that are usually funded through payments to trust funds, based on annual actuarial calculations. The Company also has defined benefit plans and a defined benefit pension plan which is a plan that determines the amount of the pension benefits to be received by an employee upon retirement, which usually depends on one or more factors, such as the employee's age, years of service and compensation.

The liability or asset recognized in the consolidated statement of financial position with respect to defined benefit pension plans is the present value of the defined benefit obligation at the consolidated statement of financial position date, less the fair value of the plan assets, along with the adjustments arising from unrecognized actuarial profits or losses and the costs of past services.

The defined benefit obligation is calculated annually by independent actuaries, using the projected unit credit method. The present value of defined benefit obligations is determined, discounting estimated cash flows at the interest rates of government bonds denominated in the same currency in which the benefits will be paid, and have expiration terms that approximate the terms of pension obligations.

Actuarial remeasurements arising from adjustments based on the experience and changes in actuarial assumptions are charged or credited to stockholders' equity in other comprehensive-income items in the period they arise.

The plans in Mexico generally expose the Company to actuarial risks, including investment risk, interest rate risk, longevity risk and risk of salary, according to the following:

Investment risk: The rate of return expected for the funds is equivalent to the discount rate, which is calculated using a discount rate determined by reference to long-term government bonds; if the return on assets is less than the fee, this will create a deficit in the plan. Currently, the plan has a balanced investment in fixed income instruments and actions. Due to the long-term nature of the plan, the Company considers it appropriate that a reasonable portion of the plan assets are invested in equities to leverage the yield generated by the fund, taking at least an investment in government instruments of 30% stipulated in the Income Tax Law.

Interest rate risk: A decrease in the interest rate increase plan liabilities; volatility in rates depends exclusively on the economic environment.

Longevity risk: The present value of the defined benefit obligation is calculated by reference to the best estimate of the mortality of plan participants. An increase in the life expectancy of plan participants increased liabilities.

Risk salary: The present value of the defined benefit obligation is calculated by reference to future wages of participants. Therefore, an increase in the expectation of salary increases participants plan liabilities.

b. Annual bonus for retaining executive

Some of the Company's executives receive an annual retainer bonus, calculated as a percentage of their annual compensation and depending on the completion of certain goals established for each officer at the beginning of the year. The Company has set up a reserve of $445,284 at December 31, 2024 ($447,794 at December 31, 2023), which included in Note 17 within the provision of bonuses and compensation to employees.

c. Employees' statutory profit sharing and bonuses

The Company recognizes a liability and a bonus expense and employees' statutory profit sharing based on a calculation that considers the tax profit after certain adjustments. In the case of the PTU derived from the reform on labor, a maximum limit of three months of the worker's salary or the average of the PTU received in the last three years was established, whichever is the lesser. The Company recognizes a provision when it is contractually obligated or when there is a past practice that generates an assumed obligation.

d. Other employees benefits by voluntary separation or dismissal

The Company grants certain benefits to employees that leave the Company either by termination or voluntary decision after 20 years of service. In accordance with IAS 19 "Employee benefits", this practice constitutes an assumed obligation of the Company to its employees, which is recorded based on annual actuarial studies prepared by independent actuaries. See Note 19.

e. Benefits paid to employees for severance required by the law

The Company recognizes and pays compensation on the first of the following dates: a) the Company may not withdraw the offer of those benefits, and b) when the Company recognizes the costs of restructuring that is within the scope of IAS 37 and involves payment termination benefits.

2.21 Capital stock

Common shares are classified as capital.

2.22 Revenue recognition

Income represents the fair value of cash collected or receivable arising from the sale of goods or the rendering of services in the normal course of Company operations. Income is shown net of discounts granted to customers.

The Company uses the IFRS 15 methodology for revenue recognition based on the following steps:

- Identification of the contract with the client;
- Identification of the performance obligations;
- Determination of the transaction price;
- Assignment of the transaction price to performance obligations;
- Recognize income as performance obligations are met.

a. Sale of merchandise

Revenue from merchandise sales is recognized when the customer buys in stores, over the phone or on the internet and takes possession of the good at the time the merchandise is delivered. The Company does not consider the sale of merchandise and its delivery as separate performance obligations, because customers obtain control of the goods at the time of delivery. For promotions of merchandise sales to months without interest less than one year, as a practical solution, the Company does not adjust the amount of said sales, in accordance with the provisions of IFRS 15. For sales to months without interest exceeding one year, the Company has assessed that the amount of the discount for such sales is not significant.

The Company considers as merchandise sales of the period those in which the customer has obtained control of a product in a post-billing delivery agreement, when all the following criteria are met:

- The reason for the post-billing delivery agreement is requested by the customer;
- The product is identified separately as belonging to the customer;
- The product is currently ready for physical transfer to the customer, and
- The Company may not have the ability to use the product or redirect it to another customer.

The Company's policy is to allow the return of certain items sold. Customer returns usually involve a change of size, color, etc.; however, in cases in which the customer definitively wishes to return the product, the Company allows customers to credit the value of the merchandise to their account, if the purchase was made with the Company's own cards, or to return the amount of the purchase in an electronic cash card or a credit to the customer's bank credit card, if the purchase was made in cash or with external cards, respectively. These transactions are recognized under deferred income.

b. E-wallets and gift certificates

- **E-wallets**

  The Company offers promotions, some of which involve benefits granted to its customers represented by e-wallets, the value of which is referred to as a percentage of the selling price. E-wallets can be used by customers to settle future purchases at the Company's department stores. Upon the time the electronic wallets are granted, they are recognized in the deferred income account in the consolidated financial position. The Company deducts the amount granted to its customers in e-wallets from revenue. This account is canceled when the customer redeems the E-wallet; whether partially or entirely through the acquisition of merchandise, recognizing revenue in the same amount. In the Company's historical experience, the likelihood of customers using e-wallets accounts that have been inactive for 24 months is very low. Therefore, e-wallets showing these characteristics are canceled, with a credit to sales.

- **Gift certificates**

  The Company offers its customers gift certificates with no specific expiration date. Upon their sale, gift certificates are recognized in the deferred revenue account in the statement of consolidated financial position. This account is canceled when the customer redeems the gift certificate; whether partially or entirely, through the acquisition of merchandise, recognizing revenue in the same amount. In the Company's historical experience, the likelihood of customers using gift certificates that have been inactive for 24 months being is remote. Therefore, certificates with these characteristics are canceled against service income and other.

c. Interest income from the customers

In accordance with IFRS 9 "Financial instruments", interest income is recognized by the effective interest rate method. Late payment of interest is recorded as income as it is collected.

d. Lease revenue

The Company's policy for recognition of operating lease revenue is described in Note 2.25.2

e. Services and other

Income from service agreements is determined as follows:

- Service income is recognized when the customer receives the benefit of the service, such as: beauty salon, travel agency, opticians, marketplace, etc.

2.23 Deferred income

The Company records deferred income arising from different transactions in which cash was received, and in which the conditions for revenue recognition described in paragraph 2.22, b) have not been met. Deferred revenue is shown separately in the consolidated statement of financial position.

2.24 Other accounts receivable

The Company classifies as other accounts receivable all loans or advance payments made to employees and other parties or companies other than the general public. If collection rights or recovery of this amount is realized within 12 months from the period close, they are classified as short-term; otherwise, they are shown as long-term.

In the case of other accounts receivable, the simplified approach of IFRS 9 has been applied to measure the expected credit losses over the life of the instrument.

2.25 Leases

2.25.1 Lessee

Leases are recognized as a right-of-use asset and a liability corresponding to the date the leased asset is available for use by the Company.

Assets and liabilities derived from a lease are initially measured at present value. Lease liabilities include the net present value of the following payments:

- Fixed payments (including if they are substantial), less lease incentives receivable;
- Variable lease payments that are based on an index or rate; initially measured using the index or rate on the start date;
- The amounts expected to be payable by the Company in the guarantee of residual value;
- Price of exercising a purchase option if the Company has reasonable certainty of exercising this option, and
- Penalty payments for the termination of the lease agreement, if the terms of the lease reflect that the Company will exercise this option.

Lease payments that will be made under renewal options with reasonable certainty of being exercised are also included in the measurement of the liability.}

The determination of lease liabilities is made using the interest rate implicit in the lease. However, that rate cannot be easily determined, so the Company uses the incremental financing rate, which is the rate that the Company would have to pay to borrow the necessary funds to obtain an asset of similar value to the right of use of assets in a similar economic environment with similar terms, guarantees and conditions.

To determine the incremental financing rate, the Company:

- It uses a risk-free interest rate plus the credit risk curve associated with the rating determined for the Company and applies specific adjustments to the lease, for example, term and currency type.

The Company is exposed to possible future increases in variable lease payments based on an index or rate, which are not included in the lease liability until they take effect. When adjustments to lease payments based on an index or rate take effect, the lease liability is reassessed and adjusted to the right of use asset.

Lease payments are allocated between the principal and the financial cost. The financial cost is charged to income during the lease period in order to produce a constant periodic interest rate on the remaining balance of the liability for each period.

The right-of-use assets are measured at cost, including the following:

- The amount of the initial measurement of the lease liability;
- Any lease payment made on or before the commencement date minus any lease incentive received;
- Any initial direct costs, and
- Restoration costs.

The right-of-use assets are generally depreciated in a straight line during the shortest period between the useful life of the asset and the lease term. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset depreciates during the useful life of the underlying asset.

The Company applied the exemption for the recognition of low-value assets, which include electronic tablets, printing equipment and small items of office furniture.

Payments associated with short-term leases of furniture and equipment, vehicles and all leases of low-value assets are recognized under the straight-line method as an expense in results. Short-term leases are leases with a lease term of 12 months or less.

2.25.2 Lessor

Revenue from operating leases in which the Company is a lessor is recognized in the statement income under the straight-line method during the term of the lease. The initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and are recognized as expenses during the term of the lease on the same basis as the income from the lease. The respective leased assets are included in the statement of the financial position depending on their nature. Lease income at 2024 and 2023 for $4,863,706 and $4,534,684, respectively, includes non-lease components for $1,678,520 and $1,459,110, which are recognized in accordance with the income standard for contracts with customers.

The Company accounted for the modifications in operating leases as a new lease from the effective date of the modification, considering the anticipated or accumulated lease payments related to the original lease as part of the payments of the new lease, they continue to be recognized in a straight line.

2.26 Earnings per share

Basic earnings per ordinary share are calculated by dividing the holding interest by the weighted average of ordinary shares outstanding during the period. Earnings per diluted share are determined by adjusting the holding interest and ordinary shares, under the assumption that the entity's commitments to issue or exchange the Company's own shares would be realized. Basic earnings are the same as diluted earnings due to the fact that there are no transactions that could dilute earnings. See Note 22.

2.27 Supplier rebates

The Company receives rebates from suppliers as reimbursement for discounts granted to customers. Supplier reimbursements related to discounts granted to customers with respect to merchandise sold are negotiated and documented by the purchasing areas and are credited to the cost of sales in the period in which they are received.

2.28 Prepaid payments

The Company recognizes prepaid payments for television advertisement and insurance premiums. Those amounts are recorded at the value that was contracted and are recorded in income when the advertisements are broadcasted and on a straight-line basis for insurance premiums. None of the insurance policies have a term exceeding twelve months.

2.29 Financial assets at fair value through other comprehensive income

Equity securities which are not held for trading and which the group has irrevocably elected at initial recognition to recognize in this category. There is no subsequent reclassification of fair value gains and losses to the income statement after the derecognition of the investment. The group transfers the gain or loss from other comprehensive income to accumulated profits in the same period in which they are generated. Dividends from such instruments are recognized in the income statement as other income when the Company's right to receive payments is established. See Note 15.

NOTE 3 - RISK MANAGEMENT:

The main risks to which the Company is exposed are:

3.1 Real estate risk
3.2 Market risks
3.2.1. Exchange rate risk
3.2.2. Interest rate risk
3.3 Financial risks
3.3.1 Liquidity risk
3.3.2 Credit risk
3.4 Fair value estimation
3.5 Climate change risk

3.1 Real estate risk

The Company owns department stores and either owns or co-owns 29 shopping malls. The Board of Directors is responsible for authorizing the purchase of land and buildings proposed by the Company's real estate area. For every real estate investment, sales are estimated per square meter and the return on the investment is to be generated. The Company has no risk concentration in accounts receivable from lessees, as it has a diversified base and periodically evaluates their payment capacity, especially prior to renewing their lease agreements. Although the value of real property in Mexico is relatively stable, economic development and structural changes in the country are risk factors that could affect the supply and demand of real property and affect rent levels and the risk of vacant commercial space. Commonly, real property in Mexico is quoted in US dollars, and thus an excessive rise in the exchange rate of the peso to the dollar or in the prices of property available to the Company or construction materials could limit the Company's plans to expand. The Company has insurance that duly covers its assets against the risk of fire, earthquake and other natural disasters. All insurance has been contracted with leading companies in the insurance market.

3.2 Market risk

The Company contracts derivative financial instruments to reduce the uncertainty of the return on its projects. The derivative financial instruments contracted are assigned for hedge accounting purposes and are closely linked to the financing contracted by the Company.

The Company's internal control policies require that the representatives of the finance and legal areas conduct an analysis prior to contracting financing or conducting operations with derivative financial instruments. In evaluating the use of derivatives, to cover the financing risks, sensitivity analysis is conducted of the different variables and effectiveness testing is conducted to determine the book treatment of the derivative financial instrument, once contracted.

3.2.1 Exchange rate risk

Except as mentioned in Note 18, the Company has not contracted financing in foreign currencies; however, the Company is exposed to risks related to movements in the exchange rate of the peso to the US dollar and the euro with respect to importations of merchandise mainly from Europe and Asia. As of December 31, 2024, and 2023, purchases of merchandise in a currency other than the Mexico peso represent approximately 12% and 13% of total purchases, respectively.

At December 31, 2024 and 2023, the Company's exposure to exchange rate risks amounted to US$347,786, €(50,263) and US($133,954), €15,158, respectively. In the event of an 8% increase in the exchange rate of the peso to the US dollar, the Company's loss would approximate $ 563,922 and $85,611. The 8% represents the sensitivity rate used when the foreign exchange risk is reported internally to the Results Review Committee and represents the Administration's assessment of the possible variation in exchange rates. The sensitivity analysis includes only the monetary items pending settlement denominated in foreign currency at the end of the year.

The Company had the following foreign currency monetary assets and liabilities:

		December 31,		
		2024		2023
Thousands of US dollars:				
Monetary assets	US$	**929,881**	US$	743,205
Monetary liabilities		**(582,095)**		(877,159)
Short (long) position	US$	**347,786**	US$	(133,954)
Equivalent in pesos	$	**7,049,031**	$	(2,262,952)

		December 31,		
		2024		2023
Thousands of Euros:				
Monetary assets	€	**15,365**	€	35,838
Monetary liabilities		**(65,628)**		(20,680)
(Long) short position	€	**(50,263)**	€	15,158
Equivalent in pesos	$	**(1,070,134)**	$	283,297

The exchange rates of the peso to the dollar, in effect at the date of the consolidated statement of financial position and the date of approval of the independent auditor's report, were as follows:

		February, 28, 2025		December 31, 2024
US dollar	$		$	20.2683
Euro	$		$	21.2907

3.2.2 Interest rate risk

The contracted financings of senior notes are subject to interest rates and expose the Company to the risk of variability in interest rates and, therefore, to its cash flows. The Company's policy is to cover most of its financing towards a fixed rate profile. The main objective of the use of derivative financial instruments is to know with certainty the effective flows that the Company will pay to comply with its obligations. With interest rate swaps, the Company agrees with other parties to deliver or receive monthly the difference between the interest amount of the variable rates agreed in the debt contracts and the amount of the interest of the fixed rates contracted in derivative financial instruments. The Company continuously analyzes its exposure to interest rates. A number of different interest rate scenarios are evaluated such as, refinancing, renewal of existing positions, alternative financing and hedging. Based on these scenarios, the Company calculates the corresponding impact on results or its consolidated financial position.

The Company contracts interest rate swaps that have critical terms similar to the item covered, such as the reference rate, restart dates, payment dates, maturities and nominal amount. As all critical terms agreed upon during the year, there is an economic relationship.

The ineffectiveness of coverage for interest rate swaps is assessed using the same principles as for hedges of purchases in foreign currency. They can occur due to the following:

- Adjustment of the creditor value/debtor value in interest rate swaps that do not correspond to the loan, and

- The critical differences between interest rate swaps and loans.

There was no recognized ineffectiveness during 2024 or 2023 in relation to interest rate swaps.

Sensitivity analysis for interest rates

The following sensitivity analyses have been determined considering the current derivative financial instruments at December 31, 2024 and assuming the following:

If interest rates had been 10 basis points below and all the other variables remained constant. The other items comprising comprehensive income for the year ended December 31, 2024 and 2023 would have increased by $102,812 and $98,250 net of deferred taxes, mainly as a result of the changes in fair value of hedge derivative financial instruments contracted to hedge against exposure to changes in interest rates.

The information corresponding to the interest rate derivative financial instruments that have been contracted is shown in Note 10 of these consolidated financial statements.

3.3 Financial risks

3.3.1 Liquidity risk

Liquidity risk is the risk that the Company will be unable to meet its fund requirements. Company's Management has established policies, procedures and limits that govern the Treasury function. The Treasury is responsible for ensuring the Company's liquidity and for managing its working capital to guarantee payments to vendors, capital investments and fund the costs and expenses of the operation. The Company finances its operations through a combination of: 1) using cash available, 2) reinvestment of a significant portion of profits, and 3) contracting financing and leasing denominated in pesos.

For 2024 and 2023, the favorable results in revenue generation and collection increase the Company excess of cash flows.

The Company has established supplier financing programs, whereby suppliers may discount their notes with different financial institutions. The balance payable under these programs is recognized in the suppliers account, as the terms of the accounts payable do not change in the consolidated statement of financial position. If the Company were to have any difficulty in meeting its obligations, such concentration would not increase the risk that the Company might have to pay a significant amount, at any given time, to a single counterparty. Management has assessed that the Company does not rely on extended payment terms and suppliers have generally not become accustomed to or do not rely on early payment under the financing arrangement. If the financial institution were to cancel the arrangement, such withdrawal would not affect the Company's ability to settle the liabilities when they become due.

As of December 31, 2024 and 2023, the Company has short-term credit lines available for approximately $21,042,461 and $6,780,352; as well as overdraft lines to immediately access debt instruments for $7,310,000 and $7,860,000, respectively.

The following table shows the contractual maturities of the Company's financial liabilities according to the expiration periods. This information has been prepared considering the cash flows without discounting, from the first date on which the Company will be required to pay and includes the contractual interests and the main cash flows:

	Between 1 month and 1 year	Between 1 and 5 years	More than 5 years
December 31, 2024:			
Suppliers and creditors	$ 53,961,577	$ -	$ -
Senior notes and contractual interests	1,961,688	28,087,642	-
Lease liabilities	2,795,259	8,065,481	14,023,101
	$ 58,718,524	$ 36,153,123	$ 14,023,101

	Between 1 month and 1 year	Between 1 and 5 years	More than 5 years
December 31, 2023:			
Suppliers and creditors	$ 51,768,181	$ -	$ -
Derivative financial instruments	639,650	1,197,410	-
Senior notes and contractual interests	7,143,553	22,868,928	5,240,900
Lease liabilities	2,451,242	7,759,314	13,925,696
	$ 62,002,626	$ 31,825,652	$ 19,166,596

3.3.2 Credit risk

Credit risk is when the Company suffers losses as a result of customers defaulting on payments, financial institutions in which it maintains investments or the counterparties with which derivative financial statements are contracted.

Loan portfolio

The Company's accounts receivable are comprised of loans granted to our customers through the use of credit cards issued by the Company to purchase merchandise, goods and services at our stores or establishments affiliated to with VISA system.

The Company has a robust risk management system for the loan portfolio, whose main components include: 1) credit granting processes, portfolio administration and management, and collection management; 2) information security, technological infrastructure and processes and procedures in store and corporate; 3) the regulatory risk, which includes aspects related to compliance with the provisions issued by the Consumer Advocacy Agency, and 4) the risk of fraud.

Credit application forms are evaluated and approved through automated procedures using parameterized scorecards (grading factors) designed by the Company. For managing the initial lines of credit, limits are also evaluated automatically by the Company's system and are periodically monitored by the risk department to increase or decrease them based on the cardholder's record. The Company has the infrastructure to manage credit line growth strategies, with risk rating models (scorecards) that allow risk predictability. Additionally, there are processes and policies for early identification of potential changes in payment capacity, prompt corrective decision making and determination of current and potential losses.

The Company continuously monitors the recovery of its portfolio based on a broad range of tools and mathematical models, as well as considering a number of factors that include historical trends of portfolio aging, a record of cancellations and future expectations of performance. In times of economic crisis and with high unemployment indexes, the Company restricts approval of applications and loans made, as well as restricting credit limits of current customers. Given the Company's line of business, there are no real guarantees related to accounts receivable. The best way to represent the maximum exposure to credit risk is the carrying value of accounts receivable.

For the management of delinquent accounts, the Company has policies, processes, analytical tools and infrastructure to manage the recovery of the portfolio. Collection management is segmented by risk level and delinquency level through specialized internal and external offices. Through automated systems, monthly account cutoffs are conducted and any accounts failing to show the requirement payment are detected. Accounts not receiving payment are immediately blocked to prevent the balance from continuing to grow and the automated computation of late-payment interest begins. Based on the evaluation of certain variables, late-payment risks of the accounts in default and the actions to be taken on those accounts are determined. The following actions are taken on accounts in default: telephone calls to customers, sending of letters and home visits, among others. Accounts showing no payment after 150 days are automatically assigned to collection agencies to take over collection efforts, and accounts showing more than 240 days default are written off.

Accounting policy for the provision for credit losses

To calculate this provision, the Company recognizes future losses in the portfolio based on the level of impairment of credit risk. The key information used to measure the provision for expected credit losses (ECL) includes the following parameters:

- Probability of Default (PD);
- Significant Increase in Credit Risk (SICR);
- Loss Given Default (LGD), and
- Exposure at Default (EAD).

The expected credit loss methodology uses information derived from statistical models using historical data.

To measure expected credit losses, the loan portfolio has been grouped based on credit risk characteristics ("Liverpool" and "LPC" credit cards), days of default and the historical performance of the portfolio. In the case of the Suburbia Tienda and Suburbia VISA (Suburbia) portfolios, the simplified approach is used, which considers the relationship between the balance of the period to be calculated and the forecast write-offs for the following 12 months, subsequently assuming that the amount to be reserved is distributed in the same proportions by stages as the Liverpool portfolios. Currently, the Company is in the process of developing the new personalized reserve model with statistical methodology that will be used for 2025 and beyond.

The Company estimates the LGD parameters based on the history of the recovery rate of claims against unpaid credits. The LGD model considers the recovery of cash. EAD represents the expected exposure at the time of payment default.

The EAD of a financial asset is the gross carrying amount at the time of default. Likewise, EAD also considers the portion of the undrawn line of credit that can potentially be exercised in the future.

The significant increase in risk is estimated with the change between the PD with which the account originated and the PD that it has at the time of calculating the provision, for this, certain thresholds are determined for credits in stage 1, which if are passed, then the credits migrate to stage 2.

The Company prospectively assesses expected credit losses related to its financial assets carried at amortized cost.

The impairment methodology depends on whether there has been a significant increase in credit risk. Once the Company has classified its financial assets according to credit risk, they are evaluated individually or collectively to identify signs of impairment and thus recognize the provision for impairment arising from credit risk.

In determining whether the credit risk of an account has increased significantly since its initial recognition, the Company considers reasonable and supportable information that is relevant and available without further cost or effort, including quantitative and qualitative information. As additional support, the Company assumes that a considerable increase in credit risk occurs when an asset defaults, that is, when loans accumulate 90 days or more without receiving a payment.

The expected credit loss model is based on changes in credit quality from initial recognition and considers the following phases:

Stage 1

This stage includes loans that have not had a significant increase in credit risk and the basis for recognition of the provision considers expected losses for the next 12 months.

Stage 2

This phase includes loans that have suffered a considerable increase in credit risk, but for which there is no objective evidence of impairment. Interest income is still calculated on the gross book value of the asset. And the recognition basis of the provision considers the expected losses throughout the remaining life of the loan.

Stage 3

This stage includes loans with objective evidence of impairment at the date of each cutoff. Interest income is calculated on the net book value. And the recognition basis of the estimate is over the remaining life of the account.

Penalty

The portfolio is written off when there is no reasonable expectation of recovery. The indicator that there is no reasonable expectation of recovery is that the debtor does not propose a payment plan to the Company, after 150 days without payment, from that moment, the credits are automatically assigned to the external lawyers firms specialized in collection to continue the collection efforts, and when reaching 240 days without receiving payments, they are canceled from the accounting. See Note 8.

Loan portfolio impairment losses are presented as net impairment losses within operating income. Subsequent recoveries of amounts previously paid are credited against the same line.

For stage 1, the PD is determined by the probability that the loan may default in the next 12 months. In stage 2, the PD is the probability of default over the remaining life of the loan. For loans in stage 3 the PD considers 100% of probability that the credit will not be recovered. See Note 8.

Prospective information incorporated in the Expected Credit Loss (ECL)

The Company uses prospective information considering historical data and its experience in managing this type of data. Likewise, the Company carried out a historical analysis to identify the macroeconomic variables that affect expected credit losses, these being the Consumer Confidence Index (ICC5), Gross Domestic Product (GDP) and the Equilibrium Interbank Interest Rate (TIIE). Based on expected changes in these factors, the Company adjusts historical loss rates.

In the case of macroeconomic factors, the Company has built a scenario stressing the variables that affect the model (GDP, TIIE and ICC5), in order to reflect the increase in risks with respect to historical changes related to the probability cardholder default.

Financial institutions and counterparties in derivative operations

Cash surpluses are invested in credit institutions with a high credit rating, such as in government instruments and counterparties in derivative operations are high credit quality financial institutions. It should be mentioned that none of the Company's derivative financial instruments require it to keep cash deposits in margin accounts to guarantee these operations.

3.4 Fair value estimate

The financial instruments in the statement of financial position are recorded at fair value based on the following hierarchy.

- Level 1 fair values are derived from prices quoted (not adjusted) in active markets for identical liabilities or assets.
- Level 2 fair values are derived from indicators different from the quoted prices included in Level 1, but that include indicators that are observable directly to quoted prices or indirectly, that is to say, derived from these prices, and
- Level 3 fair values are derived from valuation techniques that include indicators for assets or liabilities that are not based on observable market information.

December 31, 2024:	Book value	Level 1	Level 2	Level 3
Assets arising from hedge derivative financial instruments	$ 718,149	$ -	$ 718,149	$ -
Assets arising from trading derivative financial instruments	326,400	-	326,400	-
Asset at fair value through other comprehensive income	7,711,748	7,711,748	-	-
Investment as cash equivalents	4,496,837	4,496,837	-	-
Total	$ 13,253,134	$ 12,208,585	$ 1,044,549	$ -

December 31, 2023:	Book value	Level 1	Level 2	Level 3
Assets arising from hedge derivative financial instruments	$ 1,209,410	$ -	$ 1,209,410	$ -
Liabilities arising from trading derivative financial instruments	(639,650)	-	(639,650)	
Liabilities arising from hedge derivative financial instruments	(1,197,410)	-	(1,197,410)	-
Asset at fair value through other comprehensive income	4,910,597	4,910,597	-	-
Investment as cash equivalents	18,192,891	18,192,891	-	-
Total	$ 22,475,838	$ 23,103,488	$ (627,650)	$ -

During the years ended December 31, 2024 and 2023, there were no transfers between levels 1 and 2. The carrying amount of short-term financial instruments is similar to its fair value due to materializing in the short term.

Derivative financial instruments that are classified at level 2, for determining fair value, the pricing model recognized in the financial sphere was used, (estimated future cash flows brought to present value) using available market information to the valuation date. The key assumptions of market inputs used were: a) Futures curve US Government bonds, b) Futures curve Mexican Government and c) Quotation at market value.

3.5 Climate change risk

Our risk management processes consider the environmental, social, and corporate governance (ESG) factors that may impact a company's finances, assets, or reputation. During the first approach, the risks to which the Group is exposed as a result of climate change are transition risks (e.g., regulatory changes and risks to the reputation) and physical risks (even if the risk of physical damage is low due to the Group's activities and geographic location). Within the physical dangers, extreme climate conditions may occur, such as greater intensity of rains, higher occurrence of hurricanes, extended droughts, extended periods of warm temperatures during the winter, or cold weather during the summer. These may affect consumers' economies, reduce the demand for some of our inventory, produce interruptions or delays in the production and delivery of materials and products in our supply chain, and cause a shortage of personnel in our stores.

The Group is committed to operating more respectfully towards the environment each time, by working on the processes, incorporating criteria of circular economy, eco-efficiency, and reduction of greenhouse gas (GHG) emissions, which contribute to climate change. By 2040, the Group's objective is to be a Net Zero company as to direct GHG emissions, through investments in: a) recycling 100% of possible residue, b) reducing consumption of drinking water, and c) reducing energy consumption through efficiency initiatives and an increase in the use of renewable sources of energy. There are ongoing projects related to self-generated energy using solar panels at our location and incorporating the first hybrid and electric units for product distribution to clients, for which we have established charging stations. Likewise, there are projects to implement an integral system of sustainable packaging and facilities, such as distribution centers with neutrality in water consumption, GHG emissions, and waste management. Consult the Environmental performance section in the Group's Integrated Annual Report produced by the management to obtain more information regarding the climate risk and the commitments undertaken by the Group to tackle it.

The Group maintains insurance policies for earthquakes, floods, and other similar circumstances, including property, accident, and business interruption insurance, and established plans to operate in emergencies such as the ones previously described.

As of December 31, 2024, the Group has not identified risks associated with climate change that may negatively or materially affect the financial situation of the Group. Nevertheless, the management constantly evaluates the impact of climate-related matters. The Group's financial statements consider climate-related issues when these are material and applicable. In particular, the Group's commitments to reduce GHG emissions were considered when making cash flow projections to conduct the impairment tests and evaluate the useful life of its long-term assets. Assumptions might change in the future as a response to extreme climate conditions, future environmental regulations, new commitments made, and the consumers' changing demand. Even when trying to foresee the climate change effects, these could have an impact on the cash flows, performance, and future financial situation of the Group.

NOTE 4 - KEY SOURCES OF UNCERTAINTY IN THE ESTIMATES AND CRITICAL JUDGMENTS:

In applying the Company's accounting policies, which are described in Note 2, Management makes judgments, estimates and assumptions on the book figures of assets and liabilities. The related estimates and assumptions are based on historical experience and other factors considered relevant. Actual results could differ from those estimates.

Estimates and underlying assumptions are analyzed on a regular basis. The reviews of book estimates are recognized in the review period or future periods, if the review affects both the current period and subsequent periods.

The following are the sources of key uncertainty in the estimates made at the date of the consolidated statement of financial position, and which have a significant risk of deriving an adjustment to the book values of assets and liabilities during the following financial period.

4.1 Estimated impairment of intangible assets with an indefinite useful life

The methodology applied by the Company to determine whether goodwill, rights to its brands and other intangibles have suffered any impairment in value is described in Note 14.

4.2 Estimation of useful lives of brands and other intangible assets with an indefinite life

The brands acquired as part of Suburbia have demonstrated their stability by having had permanence in the market for several decades and are well-recognized in Mexico. The knowledge of the operative process of procurement, commercial planning, product design and marketing (called CATMex) is unique in the Mexican market. It has generated economic benefits for Suburbia for several decades. Based on our own experience, during 175 years of operating in Mexico, the Company believes that CATMex will continue to generate cash flows for the Company indefinitely.

To date, no factors limiting the useful life of the aforementioned intangible assets have been identified and there are no legal, regulatory or contractual considerations that limit them, so in the opinion of the Company's Management, it was determined to appoint the brands of Suburbia and CATMex as having an indefinite useful life. See Note 14.

NOTE 5 - CATEGORY OF FINANCIAL INSTRUMENTS:

December 31, 2024:	Amortized cost	Instruments at fair value through profit or loss	Instruments at fair value through other comprehensive income	Total
Financial assets:				
Cash and bank deposits	$ 20,231,342	$ -	$ -	$ 20,231,342
Investments	4,496,837	-	-	4,496,837
Derivate financial instruments	-	326,400	718,149	1,044,549
Short and long-term loan portfolio	64,331,715	-	-	64,331,715
Other short and long-term accounts receivable	3,789,606	-	-	3,789,606
Financial asset at fair value through other Comprehensive income	-	-	7,711,748	7,711,748
Financial liabilities:				
Issuance of long-term senior notes and short and long-term securities certificates	$ 24,188,961	$ -	$ -	$ 24,188,961
Suppliers, creditors and provisions	59,893,540	-	-	59,893,540

December 31, 2023:	Amortized cost	Instruments at fair value through profit or loss	Instruments at fair value through other comprehensive income	Total
Financial assets:				
Cash and bank deposits	$ 11,614,275	$ -	$ -	$ 11,614,275
Investments	18,192,891	-	-	18,192,891
Derivate financial instruments	-	-	1,209,410	1,209,410
Other financial assets	-	-	302,227	302,227
Short and long-term loan portfolio	56,973,409	-	-	56,973,409
Other short and long-term accounts receivable	3,669,372	-	-	3,669,372
Financial asset at fair value through other Comprehensive income	-	-	4,910,597	4,910,597
Financial liabilities:				
Issuance of long-term senior notes and short and long-term securities certificates	$ 27,655,649	$ -	$ -	$ 27,655,649
Suppliers, creditors and provisions	57,287,789	-	-	57,287,789
Derivate financial instruments	-	639,650	1,197,410	1,837,060

NOTE 6 - CREDIT QUALITY OF FINANCIAL INSTRUMENTS:

		December 31, 2024		2023
Loan portfolio:				
Counterparties without external risk ratings:				
Group 1 - Customers with Liverpool credit card	$	**50,644,938**	$	44,852,688
Group 2 - Customers with LPC credit card		**15,485,010**		13,780,847
Group 3 - Customers with Suburbia credit card		**4,396,832**		3,619,824
Total loan portfolio [1]	$	**70,526,780**	$	62,253,359

1 Balances are included before the provision for credit losses.

Cash, investments and short-term bank deposits [2]				
AAA	$	**24,686,338**	$	29,781,352
AA		**-**		-
A		**-**		-
	$	**24,686,338**	$	29,781,352

Financial assets - derivative financial instruments [3]				
AAA	$	**1,044,547**	$	1,209,410
AA		**-**		-
		1,044,547		1,209,410
	$	**96,257,666**	$	93,244,121

- Group 1 - For the Company, credits granted through the Liverpool credit card represent a lesser risk because its use is sporadic and seasonal and is restricted to the products on sale at Company stores.
- Group 2 - The LPC credit card, operated by the Company, imply a different risk level due mainly to the fact that they can be used at a broad number of establishments, allow their holders to draw cash from ATMs and are intended for continuous use.
- Group 3 - For the Company, credits granted through the Suburbia credit card represent a lesser risk because its use is sporadic and seasonal and is restricted to the products on sale at Company stores. The Suburbia VISA credit card, operated by the Company, imply a different risk level due mainly to the fact that they can be used at a broad number of establishments, allow their holders to draw cash from ATMs and are intended for continuous use. However, as mentioned in note 3.3.2, the company uses the simplified approach for this group as it does not have sufficient history to generate its own models and apply the general approach.

2 The rest of the cash equivalents in the statement of financial position correspond to petty cash.

3 The Company does not consider risk factors arising from default on counterparty obligations, due to which, it has not been necessary to set up reserves in this regard at December 31, 2024 and 2023.

NOTE 7 - CASH AND CASH EQUIVALENTS:

		December 31, 2024		2023
Cash and bank deposits	$	**20,231,342**	$	11,614,275
Investments		**4,496,837**		18,192,891
Total	$	**24,728,179**	$	29,807,166

NOTE 8 - LOAN PORTFOLIO AND LIABILITIES RELATED TO CONTRACTS WITH CUSTOMERS:

	December 31,			
		2024		2023
Credits related to customer contracts:				
Liverpool	$	**50,644,938**	$	44,852,688
LPC		**15,485,010**		13,780,847
Suburbia		**4,396,832**		3,619,824
		70,526,780		62,253,359
Provision for impairment of loan portfolio:				
Liverpool		**(3,982,175)**		(3,426,063)
LPC		**(1,604,363)**		(1,405,788)
Suburbia		**(608,526)**		(448,098)
		(6,195,064)		(5,279,949)
Total loan portfolio	$	**64,331,716**	$	56,973,410
Total short-term loan portfolio	$	**50,437,701**	$	45,021,773
Total long-term loan portfolio	$	**13,894,015**	$	11,951,637

The fair value of the short-term loan portfolio at December 31, 2024 and 2023 closely resembles their book value. The fair value of the long-term loan portfolio until December 31, 2024 and 2023, as established in $13,725,580 and $11,790,146, respectively, will be considered level 3 and will be determined using the technique of effective yield at the present value at a current discount rate according to the average term of the portfolio and the risk of it.

The provision for credit losses as of December 31, 2024 and 2023 was determined as follows:

Liverpool

	December 31, 2024			December 31, 2023		
Stage:	Balance	Provision	%	Balance	Provision	%
1	$ **46,932,528**	$ **1,972,830**	**4.20%**	$ 38,587,158	$ 1,355,599	3.51%
2	**2,280,684**	**962,432**	**42.20%**	5,209,777	1,299,970	24.95 %
3	**1,431,726**	**1,046,913**	**73.12%**	1,055,753	770,494	72.98 %
	$ **50,644,938**	$ **3,982,175**		$ 44,852,688	$ 3,426,063	

LPC

	December 31, 2024			December 31, 2023		
Stage:	Balance	Provision	%	Balance	Provision	%
1	$ **14,084,549**	$ **733,430**	**5.21%**	$ 10,856,161	$ 579,954	5.34 %
2	**797,983**	**357,261**	**44.77%**	2,471,175	434,612	17.59 %
3	**602,478**	**513,672**	**85.26%**	453,511	391,222	86.27 %
	$ **15,485,010**	$ **1,604,363**		$ 13,780,847	$ 1,405,788	

Suburbia

	December 31, 2024				December 31, 2023			
	From 0 to 29 days	From 30 to 89 days expired	From More than 90 days expired	Total	From 0 to 29 days	From 30 to 89 days expired	From More than 90 days expired	Total
Expected loss rate	**8.92%**	**48.62%**	**87.15%**		7.15%	50.02%	90.04%	
Credit portfolio	$ **4,062,615**	$ **117,446**	$ **216,771**	$ **4,396,832**	$ 3,336,373	$ 113,815	$ 169,636	$ 3,619,824
Provision for credit losses	$ **362,509**	$ **57,104**	$ **188,913**	$ **608,526**	$ 238,424	$ 56,934	$ 152,740	$ 448,098

As of December 31, 2024 and 2023, the movements in the allowance for impairment of accounts receivable are shown as follows:

Liverpool

		Stage 1
January 1, 2023	$	1,114,667
Remeasurement of financial assets that remain in the same stage		118,639
From stage 1 to stage 2		(61,979)
From stage 1 to stage 3		(13,220)
From stage 2 to stage 1		931,802
From stage 2 to stage 3		-
From stage 3 to stage 1		85,855
From stage 3 to stage 2		-
Financial assets granted during the period		231,701
Remeasurement of financial assets that changed stage in the period		(1,022,149)
Financial assets written off in the period		(29,717)
December 31, 2023		1,355,599
Remeasurement of financial assets that remain in the same stage		267,700
From stage 1 to stage 2		(55,464)
From stage 1 to stage 3		(25,881)
From stage 2 to stage 1		793,055
From stage 2 to stage 3		-
From stage 3 to stage 1		89,011
From stage 3 to stage 2		-
Financial assets granted during the period		299,205
Remeasurement of financial assets that changed stage in the period		(704,306)
Financial assets written off in the period		(46,089)
December 31, 2024	$	1,972,830

The financial assets written off still subject to collection activities for their recovery amount to $2,286,333 and $1,465,088, as of December 31, 2024 and 2023, respectively.

Provision for credit losses		
Stage 2	Stage 3	Total
$ 1,612,527	$ 556,957	$ 3,284,151

(299,037)	(657,199)	(1,002,325)
$ 962,432	$ 1,046,913	$ 3,982,175

LPC

		Stage 1
January 1, 2023	$	504,434
Remeasurement of financial assets that remain in the same stage		60,770
From stage 1 to stage 2		(28,186)
From stage 1 to stage 3		(8,794)
From stage 2 to stage 1		255,151
From stage 2 to stage 3		-
From stage 3 to stage 1		36,181
From stage 3 to stage 2		-
Financial assets granted during the period		88,317
Remeasurement of financial assets that changed stage in the period		(304,019)
Financial assets written off in the period		(23,900)
December 31, 2023		579,954
Remeasurement of financial assets that remain in the same stage		122,046
From stage 1 to stage 2		(20,248)
From stage 1 to stage 3		(15,015)
From stage 2 to stage 1		254,913
From stage 2 to stage 3		-
From stage 3 to stage 1		41,138
From stage 3 to stage 2		-
Financial assets granted during the period		114,975
Remeasurement of financial assets that changed stage in the period		(300,909)
Financial assets written off in the period		(43,424)
December 31, 2024	$	733,430

The financial assets written off still subject to collection activities for their recovery amount to $966,955 and $619,252, as of December 31, 2024 and 2023, respectively.

The balance of the provision for expected losses for the loan portfolio is shown below:

		2024		2023
At January 1	$	**5,279,949**	$	4,924,048
Increased in provision for credit losses recognized in income during the year		**4,545,492**		2,889,335
Loan portfolio written off during the year as uncollectible		**(3,630,377)**		(2,533,434)
At December 31	$	**6,195,064**	$	5,279,949

Sensitivity analysis for the provision for credit losses

If the Company were to change the prospective information adjustment factor by 10% up or down the macroeconomic paths, the provision for credit losses would increase by $15,613 and decrease by $19,459, respectively.

Deferred income

8.1 Liabilities related to customer contracts are shown below:

		December 31,		
		2024		2023
Contract liability - deferred income	$	**3,104,056**	$	2,917,793
Total current contract liabilities	$	**3,104,056**	$	2,917,793

Provision for credit losses

1 Includes accounts receivable from voucher issuing companies and other debtors other than merchandise.

2 This amount includes the provision for credit losses for $18,069 and $87,876, as of December 31, 2024 and 2023, respectively.

NOTE 10 - DERIVATIVE FINANCIAL INSTRUMENTS:

The Company uses Derivative Financial Instruments (DFI) to reduce the risk of adverse movements in the interest rates of its long-term debt and ensure certainty in cash flows that it will pay to comply with the obligations incurred, in addition, the Company uses negotiation instruments.

The main instruments used are interest rate and exchange rate swaps, the positions contracted at the end of each year are shown below:

Assets

		Dates		Interest rate		Fair value at December 31,			
Notional amount [2]		**Contracting**	**Maturity**	**Contracted by DFI**	**Agreed in the debt**		**2024**		**2023**

Current portion (short term)						$ -	$ 639,650

2 The notional amounts related to derivative financial instruments reflect the contracted reference volume; however, they do not reflect the amounts at risk with respect to future flows. The amounts at risk are generally limited to the unrealized profit or loss from the mark-to-market of these instruments, which may vary according to changes in the market value of the underlying asset, its volatility and the credit quality of the counterparties.

3 Trading derivative financial instruments. During 2024 and 2023, $966,050 and ($639,650) were recognized in comprehensive income, respectively.

In the futures contracts entered into in recognized and international markets associated with the interest rates of its long-term debt, the Company is subject to the rules of said markets. These rules include, among others, covering the margin to operate futures contracts, as well as the subsequent margin calls (revolving funds, which are required in the presence of variations in the underlying rates to be applied against payments) required of the Company.

As of December 31, 2023, within other financial assets, collateral (margin calls) is presented with respect to derivative financial transactions entered into with Banco Santander (México), SA, Institución de Banca Múltiple, Grupo Financiero Santander México, the value of these collaterals (guarantees) is $302,227. As of December 31, 2024, the Company has no balances derived from such activities.

NOTE 11 - INVESTMENT IN ASSOCIATES:

Concept	Activity	Place of incorporation and operations	Proportion of shareholding and voting rights December 31, 2024	2023	December 31, 2024	2023
Investment in associates [(i),(ii)]	Sales	Mexico and Central America	50%	50%	$ 8,784,896	$ 7,938,160
Other investments in associates [(iii)]	Malls	Mexico	Several	Several	2,693,154	3,179,625
					$ 11,478,050	$ 11,117,785

(i) Unicomer
Unicomer is a private company that operates a chain of stores engaged in the sale of furniture and household appliances through a chain of more than 1,283 stores, with different formats in Central America, South America and the Caribbean. The Company has a 50% equity interest in Unicomer. This acquisition gave rise to the goodwill of $757,623, which is included as part of the investment value. The Company does not exercise joint control over Unicomer because the criteria for control is not met. Under IFRS, it exercises significant influence over Unicomer, because it owns 50% of the voting rights and is entitled to designate two members of the Board of Directors.

(ii) Moda Joven Sfera México, S. A. de C. V. (Sfera México)
In 2006, the Company incorporated an entity in association with El Corte Inglés, S. A. with 49% of the capital (the leading department store chain in Spain). This entity operates a chain of 56 stores in Mexico, specializing in family clothing and accessories under the commercial name Sfera.

(iii) Other investments
Malls
Mainly correspond to the Company's equity in the following malls: Angelópolis in the city of Puebla, Plaza Satélite in the Estado de Mexico, Galerías Querétaro in the city of Querétaro, Parque Tepeyac in Mexico City and Galerias Metepec in the Estado de Mexico.

Impairment test of goodwill, brands and other intangibles

The Company conducts annual tests to determine whether the goodwill, brands and other intangibles, the rights of its brands and other intangibles (CATMex) have suffered any impairment in their value. As of December 31, 2024 and 2023, the Company performed the respective tests without determining any adjustment for impairment.

The Company identified the Suburbia commercial segment as the Cash Generating Unit (CGU), in which goodwill, trademarks and other intangibles with an indefinite life were assigned. The recoverable value of the CGUs is based on calculations of fair value less cost of disposal, which is prepared based on historical results and expectations about the development of the market in the future included in the business plan. The recovery value calculation considers the cash flow projections based on financial budgets approved by Management, and their recovery derived from the pandemic, these cash flows cover a period of eight years (maturity period of the stores) and a terminal period discounted at present value with an estimated discount rate considering the Company's level of leverage.

As of December 31, 2024 and 2023, the excess of fair value less disposal costs over book value amounted to $ 7,161,066 (25%) and $11,513,600 (47%), respectively. The level of the fair value hierarchy used was level 3.

The determination of the fair value less the cost of disposal requires the use of estimates that consider the assumptions mentioned below:

	2024 (%)	2023 (%)
Discount rate	**13.70**	13.50
EBITDA margin (average budgeted)	**19.35**	19.79
The expected growth rate of sales (average budgeted)	**10.87**	11.53
Terminal value growth rate	**3.60**	3.50

If the discount rate used to in the years ended December 31, 2024 and 2023 were 1 percentage point higher, no impairment would result in both years.

If the EBITDA used to calculate the fair value as of December 31, 2024 and 2023 were 1 percentage point lower, no impairment would result.

If the sales growth rate used in the calculation of fair value for the CGU had been 1 percentage point lower than the estimate of the Administration as of December 31, 2024, it would not result in an impairment.

If the terminal value in the year ended December 31, 2024 and 2023, was 1 percentage point higher, no impairment would result in both years.

NOTE 15 - FINANCIAL ASSET AT FAIR VALUE THROUGH OTHER COMPREHENSIVE INCOME:

Financial asset at fair value through other comprehensive income comprise:

	December 31,	
	2024	2023
Listed securities of Nordstrom, Inc	$ **7,711,748**	$ 4,910,597

On September 15, 2022, the Company invested acquired 15,755,000 shares of the North American department store Nordstrom, Inc., for the amount of 295 million of dollars equivalent to $5,943 million pesos, said amount represents 9.90% of the total outstanding shares.

As of December 31, 2024 and 2023, the valuation of these shares generated losses recognized in other comprehensive income for the amount of $2,801,150, $40,725 ($1,960,806 and $ 28,508, net of taxes), respectively. See Note 27 regarding the additional investment agreement in Nordstrom.

The dividends generated as of December 31, 2024 and 2023, for said listed shares amounted to $220,076 and $209,482, respectively, which were recognized in the income statement.

NOTE 16 - SUPPLIERS:

		December 31,		
		2024		**2023**
Suppliers without financing agreement	$	**33,992,586**	$	33,198,198
Suppliers with financing agreement [1]		**4,237,756**		4,647,741
Total	$	**38,230,342**	$	37,845,939

1 The Company has implemented certain financing agreements with suppliers, which allow suppliers to select the documents to be negotiated and these are settled by the financial institutions before the payment terms established by the Company. These programs are characterized by publishing through a platform the discount rates by the different participating financial institutions, the suppliers publish the invoices they wish to collect, the financial institutions make the acceptance and pay the discounted documents to the suppliers. The Company does not benefit from extended payment terms under these agreements, no additional guarantees are granted in relation to these agreements and it is the suppliers who absorb the financial cost. The Company analyzed the terms and conditions described above, based on said analysis it concludes that they continue to be a commercial account payable, therefore in the statement of financial position the balance of these agreements is presented within the line of "Suppliers". For the purposes of the cash flow statement, it has been determined that the amounts are part of the working capital used in the entity's main income-generating activities, therefore it presents the cash outflows to settle the liability in operating activities at the time the entity pays the banking institution. When the terms and conditions of the agreements are similar, the Company groups them for the purposes of its analysis.

As of December 31, 2024 and 2023, the ranges of payment due dates with suppliers that have financing agreements negotiated at the end of the year are between 7 days and 120 days after the date of the original invoice. The ranges of payment due dates for comparable trade payables that are not part of financing agreements with suppliers are in the same ranges.

The carrying amounts of liabilities under supplier financing agreements as of December 31, 2024 and 2023 amount to $4,237,756 and $4,657,741, respectively, which have been paid by the financial intermediary as of that date.

There were no business combinations or material exchange differences affecting liabilities under supplier financing agreements in any of the periods.

The carrying amounts of liabilities under supplier financing agreements are considered to be valued at market values, due to their short-term nature.

NOTE 17 - PROVISIONS:

		Bonuses and compensation paid to employees [1]		Other provisions [2]		Total
At January 1, 2023	$	2,278,145	$	2,473,581	$	4,751,726
Charged to statement of income		5,630,297		3,797,081		9,427,378
Used during the year		(5,456,278)		(3,203,218)		(8,659,496)
At December 31, 2023		2,452,164		3,067,444		5,519,608
Charged to statement of income		7,257,470		5,043,791		12,301,261
Used during the year		(7,335,931)		(4,552,975)		(11,888,906)
At December 31, 2024	$	2,373,703	$	3,558,260	$	5,931,963

1 Includes provisions for sales commissions, holidays and other fringe benefits.

2 Other provisions include liabilities for services rendered by consultants and maintenance of stores and offices.

NOTE 18 - DEBT:

The Company's debt is comprised as follows:

		December 31, 2024		2023
Short-term debt:				
Interest payable	$	**602,989**	$	681,005
Senior notes		**-**		5,068,050
	$	**602,989**	$	5,749,055

		December 31, 2024		2023
Long-term debt:				
Stock certificates	$	**13,500,000**	$	13,500,000
Senior notes		**10,085,972**		8,406,594
	$	**23,585,972**	$	21,906,594

The issuance of stock certificates and senior notes contracted by the Company do not establish the obligation to maintain certain proportions in its financial structure or the compliance with financial ratios; however, they require the Company to comply with certain restrictions for the payment of dividends, mergers, spin-offs, change of corporate purpose, issuance and sale of share capital, capital investments and liens. These obligations are reviewed quarterly. As of December 31, 2024 and 2023, the Company complied with the aforementioned conditions. Management has evaluated and there are no facts or circumstances that indicate a possible breach in the next twelve months.

18.1 Debt securities certificates:

Currently, the Company has placed the following unsecured issues:

Maturity	Interest payable	Interest rate		December 31, 2024		2023
Aug 2027	Semiannually	Fixed at 7.94%	$	**3,500,000**	$	3,500,000
Nov 2029	Semiannually	Fixed at 7.96%		**5,000,000**		5,000,000
Aug 2030	Semiannually	Fixed at 8.03%		**5,000,000**		5,000,000
				13,500,000		13,500,000
Less – Issues of long-term stock certificates				**(13,500,000)**		(13,500,000)
More - Interest payable				**602,989**		681,005
Current portion			$	**602,989**	$	681,005

Maturities pertaining to the long-term portion of this liability at December 31, 2024 are as follows:

Maturity		Amount
2027	$	**3,500,000**
2029		**5,000,000**
2030		**5,000,000**
	$	**13,500,000**

The fair value of the stock certificates is as follows:

	December 31, 2024				2023			
Maturity date		Book Value		Fair value [1]		Book Value		Fair value [1]
Aug 2027	$	3,500,000	$	3,266,795	$	3,500,000	$	3,237,465
Nov 2029		5,000,000		5,019,695		5,000,000		5,019,695
Nov 2030		5,000,000		4,347,150		5,000,000		4,511,550
	$	13,500,000	$	12,633,640	$	13,500,000	$	12,768,710

1 The fair value of debt securities certificates is determined based on reference to price quotations published in an active market (classified as level 1 in the fair value hierarchy).

18.2 Senior notes

Below are the details of the Senior Notes as of December 31, 2024 and 2023:

Maturity	Interest payable	Interest rate	December 31, 2024	2023
Oct. 2024 [1]	Semiannually	Fixed at 3.95%	$ -	$ 5,068,050
Oct. 2026 [2]	Semiannually	Fixed at 3.88%	**10,085,972**	8,406,594
Porción a corto plazo			$ **10,085,972**	$ 13,474,644

1 In October 2024, the Company settled Senior Notes for an amount of US$300 million ($5,900,910). The securities constitute obligations of the Company and are unconditionally guaranteed by Distribuidora Liverpool, S. A. de C. V. (subsidiary).

2 In September 2016, the Company issued Senior Notes for an amount of US$750 million, with an interest rate of 3.88% per annum and maturing in 2026. The Securities constitute obligations payable by the Company and have the unconditional guarantee of Distribuidora Liverpool, S. A. de C. V. (subsidiary).

The securities above were subject of a private offering to qualified institutional buyers in the United States and other foreign markets under Rule 144A and Regulation S under the Securities Act 1933 of the United States of America.

The fair value of issuances of Senior Notes is as follows:

	December 31,			
	2024		2023	
Maturity date	Book Value	Fair value [1]	Book Value	Fair value [1]
Oct. 2024	$ -	$ -	$ 5,068,050	$ 4,996,692
Oct. 2026	10,085,972	9,905,433	8,406,594	8,082,016
	$ 10,085,972	$ 9,905,433	$ 13,474,644	$ 13,078,708

1 The fair value of Senior Notes is determined based on price quotations published in an active market (classified as level 1 in the fair value hierarchy).

A reconciliation of debt as required by IAS 7 "Cash flow statement" is as follows:

	December 31, 2024	2023
Beginning balance of debt and interest	$ **27,655,649**	$ 29,705,040
Repayments	**(5,900,910)**	-
Foreign exchange variation	**2,512,238**	(2,056,272)
Interest accrued	**2,682,262**	2,820,158
Interest paid	**(2,760,278)**	(2,813,277)
Closing balance of debt and interest	$ **24,188,961**	$ 27,655,649

NOTE 19 - EMPLOYEE BENEFITS:

The value of employee benefit obligations at December 31, 2024 and 2023, amounted to $4,180,865 and $3,948,704, respectively, as follows:

	December 31, 2024	2023
Pension plans	$ **(1,960,084)**	$ (1,908,109)
Seniority premium	**(1,182,202)**	(1,030,729)
Other employee benefits for voluntary separation or dismissal	**(1,038,579)**	(1,009,866)
	$ **(4,180,865)**	$ (3,948,704)

The net cost for the period ended at December 31, 2024 and 2023 are as follows:

		Year ended December 31,		
		2024		**2023**
Pension plans	$	**241,114**	$	208,605
Seniority premium		**203,836**		171,887
Other employee benefits for voluntary separation or dismissal		**196,630**		163,975
	$	**641,580**	$	544,467

The amount included as a liability in the consolidated statements of financial position is integrated as follows:

		December 31,		
		2024		**2023**
Defined benefit obligations	$	**(4,180,865)**	$	(3,948,704)
Fair value of plan assets		**398,336**		298,164
Liability in the consolidated balance sheet	$	**(3,782,529)**	$	(3,650,540)

The movement in the defined benefit obligation is as follows:

		December 31,		
		2024		**2023**
Beginning balance at January 1	$	**(3,948,704)**	$	(3,339,262)
Service cost		**(310,621)**		(250,280)
Interest cost		**(360,029)**		(320,927)
Actuarial loss		**(88,240)**		(393,295)
Benefits paid		**526,729**		355,060
Ending balance at December 31	$	**(4,180,865)**	$	(3,948,704)

The movement in the liability is as follows:

		December 31,		
		2024		**2023**
Beginning balance at January 1	$	**(3,650,540)**	$	(3,084,540)
Provision of the year		**(641,580)**		(544,467)
Actuarial remeasurements		**72,858**		(362,042)
Company contributions		**(89,998)**		309
Benefits paid		**526,731**		340,200
Ending balance at December 31	$	**(3,782,529)**	$	(3,650,540)

The movement in plan assets is as follows:

		2024		**2023**
Beginning balance at January	$	**298,164**	$	254,720
Financial gain (loss) on plan assets		**190,169**		57,852
Fund contributions		**68,581**		87,053
Transfer of assets		**(158,578)**		(86,601)
Benefits paid		**-**		(14,860)
Ending balance at December 31	$	**398,336**	$	298,164

Principal categories of plan assets at the end of the reporting period are as follows:

	Fair value of plan assets December 31,			
		2024		2023
Debt instruments	$	**99,584**	$	74,541
Equity instruments		**298,752**		223,623
	$	**398,336**	$	298,164

The expected return on plan assets represents the weighted average expected return for the different categories of plan assets. The Company's assessment of expected yields is based on historical trends and analysts' predictions on the market of assets for the life of related obligations.

The significant actuarial assumptions are as follows:

	December 31,	
	2024	2023
Discount rate	**10.50%**	9.75%
Inflation rate	**3.50%**	3.50%
Salary growth rate	**4.75%**	4.75%
Pension increase rate	**4.50%**	4.50%

Assumptions concerning future mortality are established based on the actuarial study as per statistics and the published experience of each territory. Those assumptions give rise to the average life expectancy of an individual retiring at age 65.

Retiring at year-end:

	2024	2023
Men	**20 years**	20 years
Women	**22 years**	21 years

The sensitivity of the obligation for defined benefits resulting from changes in the weighted average of the main assumptions is as follows:

	Change in assumptions		Increase (decrease) in assumptions			
	2024	2023		2024		2023
Discount rate	0.5%	0.5%	$	(118,673)	$	(115,948)
Rate of salary increases	0.5%	0.5%		178,526		174,461
Pension increase rate	0.5%	0.5%		7,192		7,894
Life expectancy	1.0%	1.0%		(16,672)		(16,919)

The sensitivity above analyses are based on a change in one assumption, with all other assumptions remaining constant. In practice, this is unlikely and changes in other assumptions can be correlated. The same method (present value of defined benefit obligations calculated by the projected unit credit method at the end of the reporting period) was applied in calculating the sensitivity of the obligation for defined benefits to significant actuarial assumptions.

The methods and types of assumptions used in the sensitivity analysis were the same as those used in the preceding period.

NOTE 20 - LEASES:

20.1. The Company as a lessee:

This note provides information for leases in which the Company is a lessee.

i. Amounts recognized in the consolidated statement of financial position

The status shows the following amounts related to leases:

	December 31, 2024	December 31, 2023
Right-of-use assets:		
Buildings	$ **12,395,754**	$ 12,035,294
Furniture and equipment	**73,826**	193,264
Vehicles	**410,830**	309,080
	$ **12,880,410**	$ 12,537,638

	December 31, 2024	December 31, 2023
Lease liabilities:		
Current	$ **2,676,760**	$ 2,346,729
Non-current	**12,108,520**	11,776,558
	$ **14,785,280**	$ 14,123,287

The additions and derecognition of right-of-use assets during 2024 amounted to $2,152,801 and $72,657, respectively, and in 2023 they amounted to $2,016,910 and $248,960, respectively.

ii. Amounts recognized in the consolidated statement of incom

The consolidated statement of income shows the following amounts related to leases:

	Year ended December 31, 2024	Year ended December 31, 2023
Depreciation charge of the right-of-use assets:		
Buildings	$ **1,395,752**	$ 1,274,965
Furniture and equipment	**120,257**	141,556
Vehicles	**228,866**	190,117
	$ **1,744,875**	$ 1,606,638

	Year ended December 31, 2024	Year ended December 31, 2023
Interest expense (included in finance cost)	$ **1,327,885**	$ 1,247,223
Expenses relating to short-term leases (included in the cost of sales and administrative expenses)	**835,641**	649,759
Expenses relating to leases of low-value assets that are not shown above as short-term leases (included in administrative expenses)	**86,660**	191,766
Expense relating to variable lease payments not included in lease liabilities (included in the cost of sales and Administrative expenses)	$ **467,892**	$ 403,284

The total cash flow for the leases in 2024 and 2023 was $2,746,036 and $2,510,924, respectively.

iii. Leasing activities of the Company and how they are accounted for

The Company rents real estate, furniture and equipment, and vehicles. Rental contracts are usually made for fixed periods of 12 months to 15 years but may have options for extension of time as described in subsection v. below.

Contracts may contain lease and non-lease components. The Company assigns the consideration in the contract to the lease and non-lease components based on their relative independent prices.

The lease terms are negotiated individually and contain a wide range of different terms and conditions. Lease agreements do not impose any covenant apart from the guarantee on leased assets that the lessor maintains. Leased assets cannot be used as collateral for loan purposes.

iv. Variable lease payments

Some of the property leases contain variable payment terms that are linked to the sales generated in a store. For individual stores, up to 100% of lease payments are based on variable payment terms with a percentage range of 2% to 3% of sales. Variable payment terms are used for various reasons, including minimization of the fixed cost base for newly established stores. Variable lease payments that depend on sales are recognized in the statement income in the period when the condition triggers such payments occurs.

v. Extension and termination option

Extension and termination options are included in a series of leases of real estate, furniture and equipment throughout the Company. These are used to maximize operational flexibility in managing the assets used in the Company's operations. Most extension and termination options are held by the Company and not the lessor.

Following is the reconciliation of the lease liability required by IAS 7 "Statement of cash flows":

	December 31,			
		2024		**2023**
Beginning balance of lease liabilities	$	**14,123,287**	$	13,619,038
Acquisitions		**2,152,801**		2,016,910
Disposals		**(72,657)**		(248,960)
Accrued interest		**1,327,885**		1,247,223
Principal payment		**(1,418,151)**		(1,263,701)
Interest paid		**(1,327,885)**		(1,247,223)
Closing balance of lease liabilities	$	**14,785,280**	$	14,123,287

20.2 The Company as lessor

Operating leases are related to commercial leases. Lease periods are from one to more than five years. All operating leases over five years contain clauses for review of market income every two years. The contracts do not establish the option for tenants to buy the leased premises at the expiration date of the lease periods.

Below is an analysis of lease revenue:

	Year ended December 31,			
		2024		**2023**
Fixed rent	$	**2,939,007**	$	2,848,079
Variable rent		**246,179**		227,495
Total lease revenue	$	**3,185,186**	$	3,075,574

Following is an analysis of the minimum annual payments agreed with the lessees in the lease agreements entered into at terms of over one year:

	December 31,			
		2024		**2023**
Up to 1 year	$	**3,062,739**	$	2,980,800
From 1 to 5 years		**13,595,805**		13,378,506
Over 5 years		**20,473,119**		20,543,220
Total minimum payments agreed	$	**37,131,663**	$	36,902,526

NOTE 21 - BALANCES AND TRANSACTIONS WITH RELATED PARTIES:

During 2024 and 2023, Grupo Financiero Invex, S. A. de C. V. (Invex) provided the Company with a pension plan and workers' savings fund administration services, as well as with fiduciary services. Invex and the Company share some stockholders. Fees paid to Invex for these services amounted $6,160 and $6,306 in 2024 and 2023, respectively. At December 31, 2024 and 2023 there were no outstanding balances for these items. During 2024 and 2023, the Company contracted corporate travel services for its employees with Orión Tours, S. A. de C. V. (Orión), whose General Director is Vice-Chairman of the Company's Board of Directors. Fees paid in 2024 and 2023 to Orión amounted to $119,263 and $94,377, respectively. Likewise, 2024 and 2023 the Company contracted car insurance services with Qualitas Controladora, S. A. B. de C.V. (Qualitas) whose Board member is Vice-Chairman of the Company's Board of Directors. Fees paid in 2024 and 2023 to Qualitas amounted to $42,501 and $45,855, respectively. These services and fees were contracted using market conditions. At December 31, 2024 and 2023, no balances were pending to be paid for these items.

Compensation for directors and other key members of management during the year was as following:

	Year ended December 31,			
		2024		**2023**
Total short term benefits	$	**100,269**	$	89,290

Compensation paid to directors and key executives is determined by the Financial Review Committee, based on their performance and market trends.

NOTE 22 - STOCKHOLDERS' EQUITY:

22.1 Capital stock at December 31, 2024 and 2023, is comprised of the following:

		Minimum fixed capital
931,569,910 Series "1" shares are duly represented, constituting 81.3776% of the 1,144,750,000 Series "1" shares without expression of nominal value, subscribed and paid 197,446,100 common and registered shares and Series "C-1" without expression of nominal value, subscribed and paid	$	**269,112**
Cumulative inflation increase at December 31, 1997		**3,105,170**
Total	$	**3,374,282**

The Board of Directors approved on March 12, 2024, the payment of dividends from the Net Fiscal Income Account ("CUFIN") for $3,958,478. On May 24, 2024, $2,374,751 were paid, and in October 2024, $1,583,496 was settled.

The Board of Directors approved on March 16, 2023, the payment of dividends from the Net Fiscal Income Account ("CUFIN") for $3,503,132. On May 26, 2023 $2,106,563 were paid, and in October 2023, $1,395,666 was settled.

In accordance with IAS 29 "Hyperinflation", an entity must recognize the effects of inflation in the financial information when an economy accumulates 100% inflation in a three-year period. Mexico was considered a hyperinflationary economy until 1997, and for that reason, the Company recognized all the cumulative inflation effects up to that year.

The companies and trusts mentioned below hold a share of approximately 71% of Series 1 of the Company's share capital as of December 31, 2024, as mentioned below:

Shareholder	Number of shares of common stock	Percentage ownership of common stock (%)
Banco Nacional de México, S. A., Institución de Banca Múltiple, Grupo Financiero Banamex-Trust No. 15228-3	**278,772,661**	20.8
Banco INVEX, S. A., Institución de Banca Múltiple, INVEX Grupo Financiero-Trust No. 0327	**221,455,612**	16.5
Banco Nacional de México, S. A., Institución de Banca Múltiple, Grupo Financiero Banamex-Trust No. 504288-5	**109,114,664**	8.1
Banco INVEX, S. A., Institución de Banca Múltiple, INVEX Grupo Financiero-Trust No. 0387	**101,792,301**	7.6
Pictec and Cie	**63,424,172**	4.7
Scotiabank Inverlat S. A., Institución de Banca Múltiple-Trust No. 11033735	**36,839,656**	2.7
Fondo Administrado 5, S.A. DE C.V., Fondo de Inversión de Renta Variable	**2,107,788**	0.2
GBM 104 S. A. de C. V. Sirv.	**1,259,290**	0.1
GBM Fondo de Inversión Total, S. A. de C. V. Sirv.	**966,622**	0.1
Other	**526,463,334**	39.2
Total	**1,342,196,100**	100.0

22.2 Capital reserves

Capital reserves are comprised as follows.

	December 31,			
		2024		**2023**
Reserve for translation effects	$	**1,416,702**	$	478,796
Legal reserve		**582,500**		582,500
Reserve for the repurchase of shares [1 and 2]		**10,000,502**		8,004,370
Investment reserve		**94,319**		94,319
Reserve for valuation of derivative financial instruments		**273,175**		134,315
	$	**12,367,198**	$	9,294,300

1 During 2024, the Company purchased 22,409,740 series C-1 shares in the market at prices ranging between $99.88 and $148.57. The total purchase was $2,799,034, to which was added $2,799 transaction costs before taxes. Similarly, the Company sold 22,519,740 series C-1 shares in the market at prices ranging between $98.14 and $148.41. The total of the sale was $2,795,160, to which was added $2,795 of transaction costs before taxes.

2 In the Ordinary General Shareholders' Meeting, held on March 16, 2023, the shareholders agreed to increase the reserve for the acquisition of their own shares by up to $8,000,000.

The reserve for the acquisition of own shares represents the reserve authorized by the Shareholders' Meeting so that the Company can acquire its own shares in compliance with certain criteria established in the bylaws and in the Securities Market Law.

In the Ordinary General Shareholders' Meeting, held on March 12, 2024, the shareholders agreed to increase the reserve for the acquisition of their own shares up to $10,000,000.

The balance of the reserve for the acquisition of own shares as of December 31, 2024 and 2023, is $10,000,502 and $8,004,370, respectively.

22.3 The reconciliation of the reserve for the valuation of derivative financial instruments is as follows:

		Interest rate swap
At January 1, 2023	$	**239,103**
Plus: Change in fair value of hedging instrument		**(2,167,188)**
Less: Reclassification of OCI to results		**2,062,400**
At December 31, 2023	$	**134,315**
Plus: Change in fair value of hedging instrument		**2,648,425**
Less: Reclassification of OCI to results		**(2,509,565)**
At December 31, 2024		**273,175**

The income of the year is subject to the legal provision that requires at least 5% of the income of each year to be used to increase the legal reserve until it is equal to one-fifth of the amount of paid-in capital.

22.4 The reconciliation of the number of shares at the beginning and end of the period is shown below:

	Number of shares of common stock		Total
At December 31, 2022	1,342,196,100	$	**3,374,283**
Own shares acquired	26,458,402		**2,766,450**
Own shares sold	(26,458,402)		**(2,750,537)**
Other movements	-		**(15,913)**
At December 31, 2023	1,342,196,100		**3,374,283**

Own shares sold	(22,519,740)		**(2,788,812)**
Other movements	110,000		**(13,468)**
At December 31, 2024	1,342,196,100	$	**3,374,283**

	December 31,	
	2024	**2023**
Average weighted number of ordinary shares to determine the basic earnings per share	**1,342,049,612**	1,342,196,100

The holding company does not have dilutive instruments that impact basic earnings per share.

22.5 The balances of the tax accounts of stockholders' equity are:

		December 31,		
		2024		**2023**
Capital contributions account	$	**159,010,161**	$	146,171,364
After-tax earnings account (CUFIN)		**240,308,151**		205,909,929
Reinvested after tax earnings account (CUFINRE)		**200,435**		192,338
Total	$	**399,518,747**	$	352,273,631

22.6 Tax provisions related to stockholders' equity:

Dividends to be paid will be free from income tax if they come from the CUFIN. Any dividends paid in excess of CUFIN and reinvested CUFIN (CUFINRE) will cause a tax equivalent to 42.86%. The current tax is payable by the Company and may be credited against its current income tax of the year or the year on which it is paid. The remaining amount may be credited in the following two fiscal years against the tax of the year or against the provisional payments. Dividends paid coming from profit previously taxed by income tax will not be subject to tax withholding or additional tax payment. Income tax law sets the obligation of keeping CUFIN with profit generated up to December 31, 2013, and starting another CUFIN with profit generated from January 1, 2014.

NOTE 23 - INCOME TAX:

23.1 The income tax for the period is calculated by applying a 30% rate on the taxable profit. The income tax is integrated as follows:

	Year ended December 31,			
		2024		2023
Income tax	$	9,374,725	$	8,587,116
Deferred income tax		(419,655)		(1,089,033)
	$	8,955,070	$	7,498,083

Movements in deferred tax were as follows:

	December 31,			
		2024		2023
At January 1	$	6,025,763	$	4,606,567
Effect on the statement of income		419,655		1,089,033
Effect on the other comprehensive income		(1,225,936)		330,163
At December 31	$	5,219,482	$	6,025,763

23.2 The deferred tax balance is composed as follows:

	December 31,			
		2024		2023
Deferred income tax asset:				
Tax loss carryforwards	$	1,568,809	$	1,706,372
Lease liabilities		4,434,674		4,231,985
Provision for credit losses		2,423,833		1,995,505
Provisions, employee benefits and others		2,583,389		2,982,777
Inventories		268,493		244,337
Cash flows hedges		49,343		62,912
Investment in share of associates		354,813		587,862
Financial asset at fair value through other comprehensive income - Net of income tax		-		309,821
Other items		335,935		381,126
		12,019,289		12,502,697
Deferred income tax liability:				
Real estate and property, furniture and equipment		822,684		1,167,031
Right of use assets		3,862,661		3,756,207
Intangible assets		1,273,985		1,307,486
Prepayments		210,369		190,485
Financial asset at fair value through other comprehensive income				
Prepayments		530,525		-
Supplies		26,977		38,177
Other items		72,606		17,548
		6,799,807		6,476,934
Deferred income tax		5,219,482		6,025,763
Asset tax recoverable		9,092		8,679
Total deferred income tax asset	$	5,228,574	$	6,034,442

Net movements of deferred tax assets and liabilities during the year are explained below:

	Tax loss carryforward	Provision for credit losses	Provisions Employees benefits and others	Lease liability	Right of use assets
At January 1, 2023	$ 1,631,732	$ 1,761,398	$ 2,672,227	$ 4,082,711	$ (3,703,586)
Charged / credited to the statement of income	74,640	234,107	310,550	149,274	(52,621)
Other comprehensive income	-	-	-	-	-
At December 31, 2023	1,706,372	1,995,505	2,982,777	4,231,985	(3,756,207)
Charged / credited to the statement of income	(457,838)	435,805	67,433	202,689	(106,454)
Other comprehensive income	-	-	-	-	-
At December 31, 2024	$ 1,248,534	$ 2,431,310	$ 3,050,210	$4,434,674	$ (3,862,661)

The deferred tax due to the existence of undistributed earnings in the subsidiaries has not been recognized because the Company is able to control the timing of the reversal of the temporary differences associated with the investments or such gains are not subject to income tax payment come from the CUFIN.

At December 31, 2024, the Company has unamortized tax loss carryforwards for income tax purposes, to be indexed in the year in which they are applied, for a restated amount of:

Year	Amortizable tax loss
2030	$ **3,258,722**
2031	**1,741,445**
2032	**90,572**
2033	**95,439**
	$ **5,186,178**

In determining deferred income tax at December 31, 2024 and 2023, the Company applied to temporary differences, the applicable rates according to their estimated date of reversal.

23.3 The reconciliation of the legal income tax rate and the effective rate, stated as a percentage of the profit before income tax, is as follows.

	Year ended December 31, 2024	2023
Profit before income tax	$ **32,124,736**	$ 26,999,297
Statutory rate	**30%**	30%
Income tax at statutory rate	$ **9,637,421**	$ 8,099,789
Plus (less) effects of taxes of the following items:		
Non-deductible expenses	$ **557,939**	$ 419,073
Non-taxable income	**(483,412)**	(188,410)
Annual inflation adjustment taxable deductible	**(234,054)**	(129,029)
Equity in the results of associates	**118,614**	34,011
Investment property, furniture and equipment	**(940,086)**	(919,272)

$ (822,684)	$ 354,813	$ 268,493	$ (1,273,985)	$ (609,222)	$ 5,219,482

NOTE 24 - SEGMENT INFORMATION:

Segment information is reported based on the information used by the Financial Review Committee in making strategic and operating decisions. An operating segment is defined as a component of an entity in which there is separate financial information that is evaluated regularly.

IFRS 8 requires disclosure of assets and liabilities pertaining to one segment, if measurement is regularly provided to the decision-making body; however, with respect to the Company, the Financial Review Committee only evaluates the performance of the operating segments based on an analysis of income and operating profit, but not of each segment's assets and liabilities.

Liverpool commercial segment
Includes the sale of clothing and accessories for men, women and children, household goods, furniture, cosmetics and other consumer products through department stores that operate under the name Liverpool, "Liverpool Duty-Free and boutiques such as "Banana Republic", "GAP", "Pottery Barn", "West Elm" and "Williams-Sonoma". It also includes the operations of our website www.liverpool.com.mx, Liverpool pocket, marketplace and phone sales. The store formats of this segment are mainly focused on the income population A, B and C +, according to the National Statistical and Geography Institute (INEGI)

Suburbia commercial segment
Includes the Suburbia stores and the operative division of purchases, commercial planning, product design and commercialization (CATMex). Suburbia offers a wide selection of products but mainly its own brands such as Weekend, Non-Stop, Contempo, La Mode, Metropolis and Gianfranco Dunna in the stores and our website www.suburbia.com.mx, focused on the population of income C and D +, according to the INEGI criteria.

Real estate segment
The real estate segment is an important complement for the Liverpool commercial segment. The Company operates shopping centers known as "Galerías", through which it leases commercial spaces to tenants dedicated to a wide variety of businesses that provide a greater number of potential customers for departmental warehouses. Also designs and develops store expansion and remodeling projects, shopping centers and other facilities.

Credit segment
The credit segment is an important complement to the Liverpool and Suburbia commercial segment. The Company finances its clients in the form of "Liverpool and Suburbia" departmental credit cards, which customers can buy exclusively at Company stores. Additionally, the Company operates the "LPC" and "Suburbia" credit cards, the former can be used to acquire goods and services both in the chain's stores and boutiques and in any store throughout the world operating with VISA cards.

24.1 Income and results per segment

The Company reports its results for each operating segment at the income, costs and expenses, and operating profit level. The other income statement items are not assigned, as they are managed on a corporate level.

The following is an analysis of income and results per segment to be reported:

Year ended	**Commercial**				
at December 31, 2024:	**Liverpool**	**Suburbia**	**Credit**	**Real Estate**	**Consolidated**
Net income	$ 167,017,151	$ 23,708,137	$ 19,258,877	$ 4,863,706	$ 214,847,871
Cost and expenses	(149,875,695)	(21,983,450)	(8,974,855)	(2,159,733)	(182,993,733)
Operating income	$ 17,141,456	$ 1,724,687	$ 10,284,022	$ 2,703,973	$ 31,854,138
Timing of revenue recognition:					
Over time	$ 167,017,151	$ 23,708,137	$ -	$ 1,678,520	$ 192,403,808

Year ended	**Commercial**				
at December 31, 2023:	**Liverpool**	**Suburbia**	**Credit**	**Real Estate**	**Consolidated**
Net income	$ 153,606,381	$ 21,582,062	$ 16,268,496	$ 4,534,684	$ 195,991,623
Cost and expenses	(137,084,235)	(20,314,410)	(6,865,446)	(2,121,744)	(166,385,835)
Operating income	$ 16,522,146	$ 1,267,652	$ 9,403,050	$ 2,412,940	$ 29,605,788
Timing of revenue recognition:					
Over time	$ 153,606,381	$ 21,582,062	$ -	$ 1,459,110	$ 176,647,553

The information disclosed in each segment is shown net of eliminations corresponding to transactions conducted between Group companies. Inter-segment results and transactions are eliminated at the consolidated level, forming part of the Group's final consolidation. This form of presentation is the same as that used by Management in its periodic review processes of the Company's performance.

Taxes and financing costs are viewed at the Group level and not within the reporting segments. As a result, this information is not shown in each reporting segment. Operating income is the key performance metric for management, which is reported on a monthly basis to the Company's Corporate Governance.

24.2 Geographic information

The information by geographic segments of the Company is reported using the following zones:

		Year ended December 31,		
		2024		**2023**
Ciudad de México and Estado de México	$	**64,058,361**	$	58,026,897
Hidalgo, Puebla, Morelos, Guerrero, Veracruz and Tlaxcala		**31,310,649**		27,991,914

Other payments		**857,793**		747,350
	$	**26,575,941**	$	23,908,219

NOTE 26 - CONTINGENCIES AND COMMITMENTS:

a. Contingencies

The Company is involved in various lawsuits and claims arising from the normal course of its operations, none of which is of importance, both individually and in aggregate, so it is expected that they will not have an important effect on your financial situation and future consolidated operating results.

b. Commitments

During 2018, the Company signed a 15-year electricity purchase and sale agreement with one of the subsidiaries of Infraestructura Energética Nova, S. A. B. de C. V. (IEnova), for the power plant located in Sonora.

In 2019, another agreement was signed with IEnova for a period of 15 years for the purchase and sale of electric power, said power plant is located in Chihuahua.

NOTE 27 - UBSEQUENT EVENTS:

a. Joint Acquisition of Nordstrom

In December 2024, the Company entered into a definitive agreement with members of the Nordstrom family (the "Nordstrom Family") to jointly acquire all of the shares representing the capital stock of Nordstrom, Inc. ("Nordstrom") that are not owned by either party, at a price of US$24.25 per share (the "Transaction"). If the Transaction is consummated, the Company will indirectly own 49.9% of Nordstrom's capital stock, while the Nordstrom Family will indirectly own 50.1%. The Transaction would be financed in part with its own resources and in part with external financing (see item b. below in this Note).

The Transaction is subject to the fulfillment of certain requirements, including regulatory approvals in the United States and the approval of Nordstrom shareholders. Shareholder approval requires an affirmative vote of two-thirds of the shares representing Nordstrom's capital stock and a majority of the shares excluding shares owned by the Nordstrom Family or Liverpool and their respective related parties, as well as shares owned by the relevant directors and officers of Nordstrom.

The Acquisition is expected to close in the first half of 2025. The Transaction was approved by Liverpool's Board of Directors on December 22, 2024, and does not require the approval of Liverpool's shareholders' meeting.

b. Placement of debt securities (Senior Notes)

During January 2025, the Company placed debt securities in the international markets (Senior Notes) for a total amount of US $1,000,000,000 in two tranches. The first tranche for an amount of US$500,000,000, which will bear interest at a rate of 6.255% and mature in 2032, and the second tranche for an amount of US$500,000,000, which will bear interest at a rate of 6.658% and mature in 2037 (the "Securities"). The Securities were issued on January 22, 2025 and are guaranteed by its subsidiary Distribuidora Liverpool, S.A. de C.V. The Company intends to use the net proceeds from such issuance to finance a portion of the acquisition of Nordstrom Inc. described in the preceding section a. of this Note.

The Securities were the subject of a private offering directed to qualified institutional investors in the United States of America and to persons outside the United States of America in accordance with Rules 144A and S of the Securities Act of 1933 of the United States of America. The Securities have been listed on the Euronext Dublin Stock Exchange (Global Exchange Market of Euronext Dublin).

The Securities have not been and will not be registered in the National Securities Registry maintained by the National Banking and Securities Commission and have not been publicly offered in Mexico.

NOTE 28 - AUTHORIZATION OF ISSUANCE OF CONSOLIDATED FINANCIAL STATEMENTS:

The consolidated financial statements were authorized for issuance on February 28, 2025, by the Board of Directors and are subject to approval by the stockholders' meeting.
