Our assurance was with respect to the Sustainability Indicators for the year ended December 31, 2023 only and we have not performed any procedures with respect to earlier periods or any other indicators or elements included in the Integrated Annual Report 2023 and, therefore, do not express any conclusion thereon.

Criteria

The criteria used by El Puerto de Liverpool to prepare the identified Sustainability Indicators are the Global Reporting Initiative (GRI) Standards (the "Criteria") and are set out in the section "GRI Index Content" on page 70 of the Integrated Annual Report 2023.

El Puerto de Liverpool's Responsibility on the Sustainability Indicators

El Puerto de Liverpool is responsible for the preparation of the identified Sustainability Indicators in accordance with the Criteria. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of identified Sustainability Indicators that are free from material misstatement, whether due to fraud or error.

Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality, and professional behavior. Our firm applies International Standard on Quality Control 1 and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Responsibilities of Independent Professionals in Relation to Assurance Work

Our responsibility is to express a limited assurance conclusion on the identified Sustainability Indicators in accordance with the Criteria, based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements 3000 (Revised), Assurance Engagements other than Audits or Reviews of Historical Financial Information, issued by the International Auditing and Assurance Standards Board of the International Federation of Accountants. These standards require that we plan and perform this engagement to obtain limited assurance about whether the identified Sustainability Indicators are free from material misstatement.

A limited assurance engagement involves assessing the suitability in the circumstances of El Puerto de Liverpool's use of the Criteria as the basis for the preparation of the identified Sustainability Indicators, assessing the risks of material misstatement whether due to fraud or error of the identified Sustainability Indicators, responding to the assessed risks as necessary in the circumstances, and evaluating the overall presentation of the identified Sustainability Indicators. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

The procedures we performed were based on our professional judgment and included interviews, review of the processes executed, inspection of documents, analytical procedures, tests on selective bases, and agreeing or reconciling with underlying records.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about whether El Puerto de Liverpool's identified Sustainability Indicators have been prepared, in all material respects, in accordance with the Criteria.

Limited Assurance Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that El Puerto de Liverpool identified Sustainability Indicators for the year ended December 31, 2023 is not prepared, in all material respects, in accordance with the Criteria¹.

Our assurance was with respect to the Sustainability Indicators for the year ended December 31, 2023 only and we have not performed any procedures with respect to earlier periods or any other indicators or elements included in the Integrated Annual Report 2023 and, therefore, do not express any conclusion thereon.

Criteria

The criteria used by El Puerto de Liverpool to prepare the identified Sustainability Indicators are the Sustainability Accounting Standards Board (SASB) Standards of the industries: E-Commerce, Multiline and Specialty Retailers Distributors and Consumer Finance 2018 version (the "Criteria") and are set out in the section "SASB Topics Index" on page 96 of the Integrated Annual Report 2023.

El Puerto de Liverpool's Responsibility on the Sustainability Indicators

El Puerto de Liverpool is responsible for the preparation of the identified Sustainability Indicators in accordance with the Criteria. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of identified Sustainability Indicators that are free from material misstatement, whether due to fraud or error.

Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the International Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior. Our firm applies International Standard on Quality Control 1 and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Responsibilities of Independent Professionals in Relation to Assurance Work

Our responsibility is to express a limited assurance conclusion on the identified Sustainability Indicators in accordance with the Criteria, based on the procedures we have performed and the evidence we have obtained. We conducted our limited assurance engagement in accordance with the International Standard on Assurance Engagements 3000 (Revised), Assurance Engagements other than Audits or Reviews of Historical Financial Information, issued by the International Auditing and Assurance Standards Board of the International Federation of Accountants. These standards require that we plan and perform this engagement to obtain limited assurance about whether the identified Sustainability Indicators are free from material misstatement.

A limited assurance engagement involves assessing the suitability in the circumstances of El Puerto de Liverpool's use of the Criteria as the basis for the preparation of the identified Sustainability Indicators, assessing the risks of material misstatement whether due to fraud or error of the identified Sustainability Indicators, responding to the assessed risks as necessary in the circumstances, and evaluating the overall presentation of the identified Sustainability Indicators. A limited assurance engagement is substantially less in scope than a reasonable assurance engagement in relation to both the risk assessment procedures, including an understanding of internal control, and the procedures performed in response to the assessed risks.

The procedures we performed were based on our professional judgment and included interviews, review of the processes executed, inspection of documents, analytical procedures, tests on selective bases, and agreeing or reconciling with underlying records.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement. Accordingly, we do not express a reasonable assurance opinion about whether El Puerto de Liverpool's identified Sustainability Indicators have been prepared, in all material respects, in accordance with the Criteria.

Limited Assurance Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that El Puerto de Liverpool identified Sustainability Indicators for the year ended December 31, 2023 are not prepared, in all material respects, in accordance with the Criteria¹.
